INTRODUCTION

Penal Code 6031.2 requires The Board of State and Community Corrections to submit, by the end of even-numbered years, reports to the Legislature showing results of its biennial community corrections facility inspections.

Penal Code [6031.2](#) states:

The Board of Corrections (now the BSCC) shall file with the Legislature on December 30, in each even-numbered year, reports to the Legislature which shall include information on all of the following:

(a) Inspection of those local detention facilities that have not complied with the minimum standards established pursuant to Section 6030. The reports shall specify those areas in which the facility has failed to comply and the estimated cost to the facility necessary to accomplish compliance with the minimum standards.

(b) Information regarding the progress and effectiveness of the standards and training program contained in Sections 6035 to 6037, inclusive.

(c) Status of funds expended, interest earned, actions implementing the prerequisites for funding, any reallocations of funds pursuant to Sections 4497.04 to 4497.16, inclusive, and a complete listing of funds allocated to each county.

(d) Inmate accounting system data to be maintained on an annual basis by the sheriff, chief of police, or other official in charge of operating the adult detention system in a county or city, including all of the following:

(1) Average daily population of sentenced and un-sentenced prisoners classified according to gender and juvenile status.

(2) Jail admissions of sentenced and un-sentenced prisoners, booking charge, date and time of booking, date and time of release, and operating expenses.

(3) Detention system capital and operating expenses.

(Amended by Stats. 1996, Ch. 805, Sec. 5. Effective January 1, 1997.)

This report, covering Fiscal Years 2014-2016, is an overview of the 459 county jails that make up California's adult community corrections system, including:

- Compliance status of each facility with Title 15 and Title 24 Regulations;
- Effectiveness of corrections officer training through the BSCC Standards and Training for Corrections (STC) Division.

- Demographics of the populations that have been locally incarcerated.

Penal Code section 6031.2 (a) requires that this report include the estimated cost to bring non-compliant facilities up to the state's minimum standards. This information is not collected and would be speculative, so it is not included in this report. In addition, 6031.2 (c) is a reference to a construction bond program that expired in 1988 so it therefore will not be included in this report.

SECTION I

Adult Community Corrections Facilities Biennial Inspections

The BSCC is responsible for the inspection of 459 adult local corrections facilities and inspects each within a two-year cycle. The facilities are inspected for compliance with Title 15 and Title 24 regulations. Title 15 regulations outline minimum standards for administration and operation of the facilities, medical and mental health care, nutritional quality of food, and environmental standards (cleanliness). Title 24 regulations set minimum standards for design and construction.

BSCC Field Representatives visit each facility to conduct a pre-inspection briefing that outlines for administrators the expectations for the inspection, including a reminder of previous deficiencies, any changes in regulations, and requirements for review of documentation of applicable jail operations. The pre-inspection briefing is designed to facilitate the process and ensure compliance with standards. The on-site inspection occurs later and includes: interviews with facility staff and inmates; review of applicable policies and documentation of facility procedures such as grievances and safety checks; and a walk-through of the physical plant. Following the inspection, BSCC staff informs officials of any compliance issues and works with facility staff to develop a corrective action plan, if necessary. This final phase of the inspection includes a detailed report, follow-up visits and technical assistance to ensure continued compliance.

The most frequently noted deficiencies during the FY 2014-FY2016 Biennial Inspection Cycle occurred in the following areas:

- Physical plant issues generally associated with crowded conditions or outmoded facilities.
- Inadequate staffing levels that result in late mandated safety checks on offenders.
- Lack of fire-suppression planning.
- Sobering cells: generally for use as general housing cells.

Figure 1

Article	Number of Instances of Non-Compliance
Physical Plant	126
Training, Personnel & Management	84
Medical and Mental Health Services	24
Classification & Segregation	24
Food	33
Inmate Programs & Services	3
Inmate Clothing and Personal Hygiene	3
Facility Sanitation & Safety	5
Discipline	2

Appendix A provides a county-by-county summary of compliance issues.

It's important to note that a facility might be out of compliance with only one element of a regulation and not each aspect of a regulation. While all inspections were completed by the end of the last fiscal year, which is within the biennial timeframe, as of December 30, 2016 some facilities are still within the window to complete corrective actions so those compliance statuses are not included in this report.

SECTION II

Standards and Training for Corrections

Penal Code Sections 6030, 6035, 6036 and 6040 require the BSCC to establish selection and training standards for local corrections personnel and to assist in offsetting the costs to local agencies by providing statewide subvention from the Corrections Training Fund (CTF). The BSCC carries out these responsibilities through the Standards and Training for Corrections (STC) Program. This section summarizes program participation, activities and compliance with STC standards.

Program Participation

Participation in the STC Program is voluntary and is open to any local corrections agency that employs adult corrections officers (ACOs), juvenile corrections officers (JCOs), and/or probation officers (POs). This includes sheriff's departments, probation departments, police departments that operate a jail, or county correctional agencies.

Local agencies that choose to participate in the STC Program receive a wide variety of benefits. These include:

- **Funding** – Participating agencies receive funding administered by STC to apply toward their selection and training costs.
- **Selection and Training Standards** – Participating agencies receive access to validated selection and training tools designed specifically for the community corrections job and made available at little or no cost. These standards also provide legal defensibility in the event of litigation.
- **Course Certification System** – Participating agencies have access to a catalog of corrections training courses that have been certified to a professional standard of quality.
- **STC-Delivered Training** – Participating agencies have access to training designed and delivered free of charge to support their training programs.
- **Technical Assistance and Support** – Participating agencies are assigned an STC Field Representative to provide on-going program review and support.

During FY 2014/2015 156 local agencies participated in the STC Program, including all county probation departments and sheriff’s departments/departments of corrections that operate a jail. In FY 2015/2016 the number of participating agencies was 161.

Figure 2 shows a breakdown of agencies that participate in the program.

Figure 2

Participating Agencies	Fiscal Year 2014/15	Fiscal Year 2015/16
Probation Departments	59*	59*
Sheriff’s Departments	55**	54**
Police Departments	40	39
Juvenile Facilities (other than probation departments)	0	0
Departments of Corrections	3	3

*San Francisco has an adult and a juvenile probation department

**Alpine County does not operate a jail and Sierra County’s jail closed in 15/16

Figure 3 shows the number of local corrections staff trained through the STC Program during FY 2014/2015 and 2015/2016.

Figure 3

Number of Budgeted and STC-Eligible Positions

Positions	Fiscal Year 2014/15	Fiscal Year 2015/16
Adult Corrections Officers (ACO)	15,642	12,540
Juvenile Corrections Officers (JCO)	6,948	9,627
Probation Officers (PO)	6,895	7,075
Supervisors	3,317	3,408
Managers	976	993
Administrators	256	252
Total	34,034	33,895

Selection and Training Standards

The STC program standardizes the selection and training of local corrections staff across the state. This standardization results in a skilled and flexible statewide corrections workforce and significant cost savings. The BSCC sets standards in accordance with Federal Uniform Guidelines on Employee Selection Procedures, which is the professional and legal standard for selection practices. By following these procedures, the BSCC ensures the job relevance of each standard. Establishing job relevance ensures that the community corrections workforce is selected and trained appropriately, and provides legal protection for local agencies in the event of a legal challenge to the standard. The statewide standards also achieve cost savings by eliminating the need for each county to develop its own selection and training standards. It also facilitates the movement of corrections professionals between counties by establishing a community standard and eliminating the need to conduct duplicative selection assessments and training.

The BSCC's selection standards include:

1. a minimum of 18 years of age prior to appointment;
2. competence in oral communication as demonstrated by an interview;
3. passing a background investigation conducted by the agency;
4. ability to perform essential job functions as demonstrated by meeting guidelines for vision, hearing, and medical screening;
5. achieving a passing score on a written selection examination;
6. successful completion of entry-level core training; and,
7. successful completion of an on-the-job probationary period.

Written Selection Examination

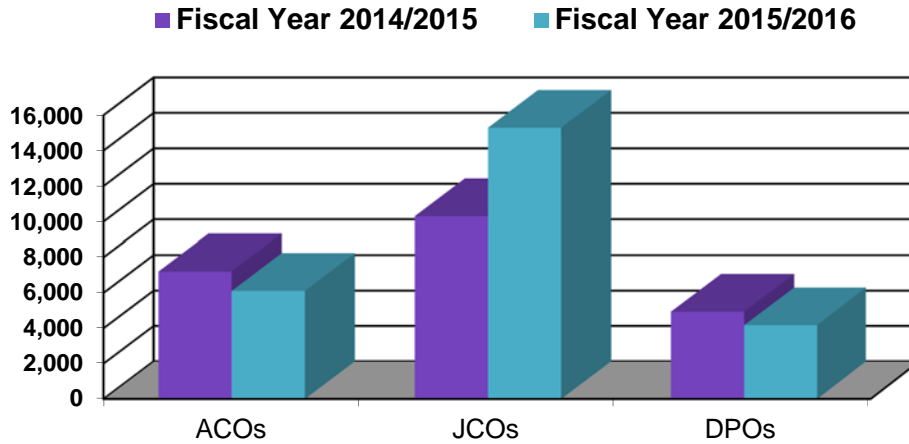

As part of the BSCC's role in setting selection standards for local corrections personnel, the STC Program provides validated written selection examinations for the ACO, JCO, and PO classifications. The written selection examination measures basic abilities and characteristics for successful job performance. Providing the selection examinations offers a significant benefit to counties and cities in that test development is expensive, time consuming, and requires a large sample size and highly technical staff to complete such an endeavor.

While the regulations allow participating agencies to utilize an alternative selection examination, 138 agencies used the BSCC selection examination in FY 2014/2015 and 139 used it in FY 2015/2016. The alternative examination most frequently used is the Peace Officer Standards and Training (POST) examination because correctional staff can be hired as sheriff's deputies or police officers.

During FY 2014/2015 and 2015/2016, STC provided administrative oversight of 48,032 written selection examinations to local job candidates. Figure 3 shows statewide use of the BSCC's selection examinations in those years.

Figure 4

Selection Examination Usage

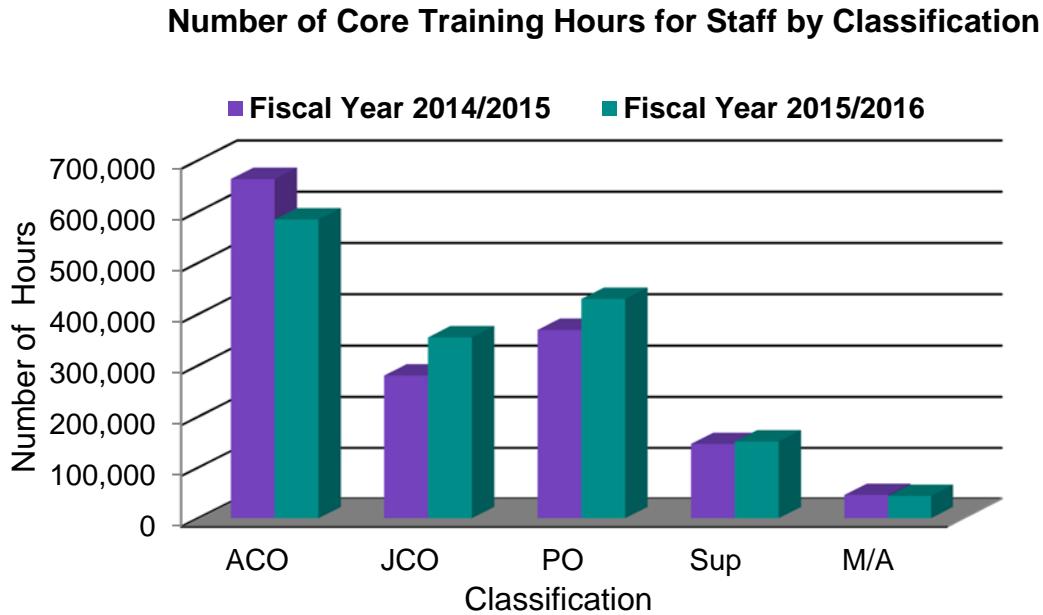

Training Standards

Pursuant to the selection standards, each newly hired or promoted local corrections professional must successfully complete a core training course within the first year of job assignment. Although the specific duties and responsibilities of these personnel may differ from one agency to another and from one assignment to another in the same jurisdiction, the core training course addresses the activities or tasks performed by the majority of local corrections workers throughout the state, regardless of the location, size, or budget of the employing agency. The core training requirements include prescribed learning objectives, instructional hours, and testing methods.

Once entry-level skills are mastered through the core-training curriculum, local corrections employees move on to develop journey-level skills through annual training. These courses provide in-depth coverage of topics that enhance skills and update employees on changes in their specific job assignments. The BSCC’s standard requires that all corrections personnel (line staff through top management) complete a prescribed number of training hours each year, from 24 to 40 hours (depending on job classification).

Figure 5 shows the minimum number of training hours that correctional staff received training FY 2014/2015 and 2015/2016. This is the minimum number of hours required by the STC program. Oftentimes, participating agencies exceed these minimum training hours. The graph is sorted by classification: ACO, JCO, PO, supervisor (Sup), and manager/administrator (M/A).

Figure 5

Course Certification and Monitoring System

To support its training standards and the delivery of quality training, STC administers an electronic training certification system that provides local agencies with a large library of job-relevant courses offered by private training providers, colleges, and other local corrections agencies. Local corrections agencies can search STC’s course catalog and calendar to identify courses of interest as well as scheduled presentation dates and locations.

The quality of training is assessed through evaluations and course monitoring. Each course is also subject to on-site monitoring by STC as a tool to ensure training quality and to provide technical assistance when needed. Only courses that are STC certified can be used to meet the BSCC’s core and annual training standards. Approximately 5,000 training courses are certified by STC each year.

Program Review

Corrections agencies that choose to participate in the STC Program agree to meet the program standards. STC monitors agency compliance with those standards annually, and provides on-going program support and technical assistance in support of local training efforts. An STC Field Representative is assigned to each participating agency to work with them throughout the year to meet their training goals. At the conclusion of each year, participating agencies and STC staff conduct a comprehensive review of the plan to determine the agency’s progress with meeting the selection and training standards.

During the year-end comprehensive review of the training progress, agencies are found to be in full compliance or out of compliance. When the regulations have not been met, it is often due to circumstances beyond the control of the individual agency, such as medical leave. In these cases, STC staff makes a recommendation to the BSCC for a finding of full compliance in recognition of the mitigating and approved circumstances. Figure 6 shows the compliance status of agencies for FY 2014/2015 and 2015/2016.

Figure 6

Compliance Status

	In Compliance	Out of Compliance	Total Participating Agencies
Fiscal Year 2014/15	149 Agencies	7 Agencies	156 Agencies
Fiscal Year 2015/16	155 Agencies	6 Agencies	161 Agencies

Technical Assistance and Training

STC Field Representatives work with participating agencies throughout the year to provide technical assistance in support of local training programs and to help them meet training standards. Technical assistance can range from assessing the appropriateness of a particular training intervention to helping craft action plans intended to improve standards compliance. It also includes providing training to support quality training programs delivered at the local level.

In recent years, there has been an increase in the development and delivery of in-house training within agencies. In response, STC increased the number of courses that it offers and expanded its course catalog to meet the emerging needs of agency training programs. STC presented a 20-hour Instructor Development Course (IDC) on twelve occasions during FY 2014/2015 and on eleven occasions during FY 2015/2016.

STC also continues to present IDCs specifically designed for core course instructors. Additional training that STC provides to local agencies includes:

- new training managers course;
- lesson plan development; and
- test administration;

The purpose of these courses is to provide training professionals with foundational skills required to design and deliver quality training.

Special Projects

STC Program Improvement Project Overview

In Fiscal Year 2012/2013, the STC Division completed a comprehensive assessment of its regulations, policies and procedures to determine how the program could best meet the training needs of local corrections agencies. Under the direction of an Executive Steering Committee (ESC), informed by a stakeholder survey, and approved by the Board, numerous policy changes, regulation revisions, and short term program improvement strategies were adopted. In addition, the ESC made several recommendations for longer term program improvements including reviewing and revising the program standards, streamlining records and processes through a Learning Management System (LMS), and expanding the technical assistance, training and consulting services offered to local agencies.

In FY 2012/13, the STC Division began the Local Selection and Training Standards (LSATS) Project to conduct a comprehensive assessment and revision of its selection and training standards. The LSATS project is a multi-year endeavor which includes the following components:

- **Job Analysis** – An analysis of the Adult Corrections Officer, Juvenile Corrections Officer and Probation Officer jobs to determine how they have changed over time and as a result of Realignment. The analysis was completed in 2015 and identified the tasks that are performed by these positions and the knowledge, skills and abilities that are necessary for successful job performance. The job analysis serves as the foundation for subsequent changes to selection and training standards.
- **How the Jobs Have Changed** – This study was completed in 2015 and focused on how the ACO, JCO and PO jobs as well as the supervisory and managerial jobs for those positions have changed over time and since Realignment. This study provides the ability to identify new training needs.
- **Agency Specific Job Analysis Results** – Each agency that participated in the job analysis questionnaire received a report that compared the agency's responses with the statewide findings as a tool for identifying their agency specific training needs.

- **Updated Core Training** – The core training curriculum and requirements for the ACO, JCO, PO, Supervisory and Manager jobs is currently being updated to reflect the findings of the job analysis. The updated core training standards are expected to be completed in Fall 2017.
- **Updated Selection Examination** – A single and updated entry-level written selection examination for the ACO, JCO and PO positions is currently being piloted and is expected to be completed in 2018.

SECTION III

The Jail Profile Survey

Since 1996 the BSCC has collected information on adults in the custody of community corrections facilities using the Jail Profile Survey (JPS). (Appendix B) The survey relies on jail administrators to input local data into BSCC's web-based portal. BSCC staff reviews the data for inconsistencies that could mean errors in reporting and follows up with the counties to correct data if necessary.

Only Type II and III facilities are surveyed through the JPS. Type II facilities house offenders that are pending arraignment, awaiting trial, in trial, or sentenced locally. Type III facilities hold inmates that are serving sentences locally.

The results of the Calendar Year 2015 Adult Jail Profile Survey Results required by Penal Code 6031.2 (d)(1) are as follows:

Average Daily Population: 73,678 (of those 46,344 – or 64 percent -- were non-sentenced)

- 88 percent of non-sentenced inmates are male
- 12 percent of non-sentenced inmates are female
- 85 percent of sentenced inmates are male
- 15 percent of sentenced inmates are female

The BSCC does not collect data on booking charges, date and time of booking, and date and time of release that is requested for inclusion under PC 6031.2 (d)(2), so it is not included in this report.

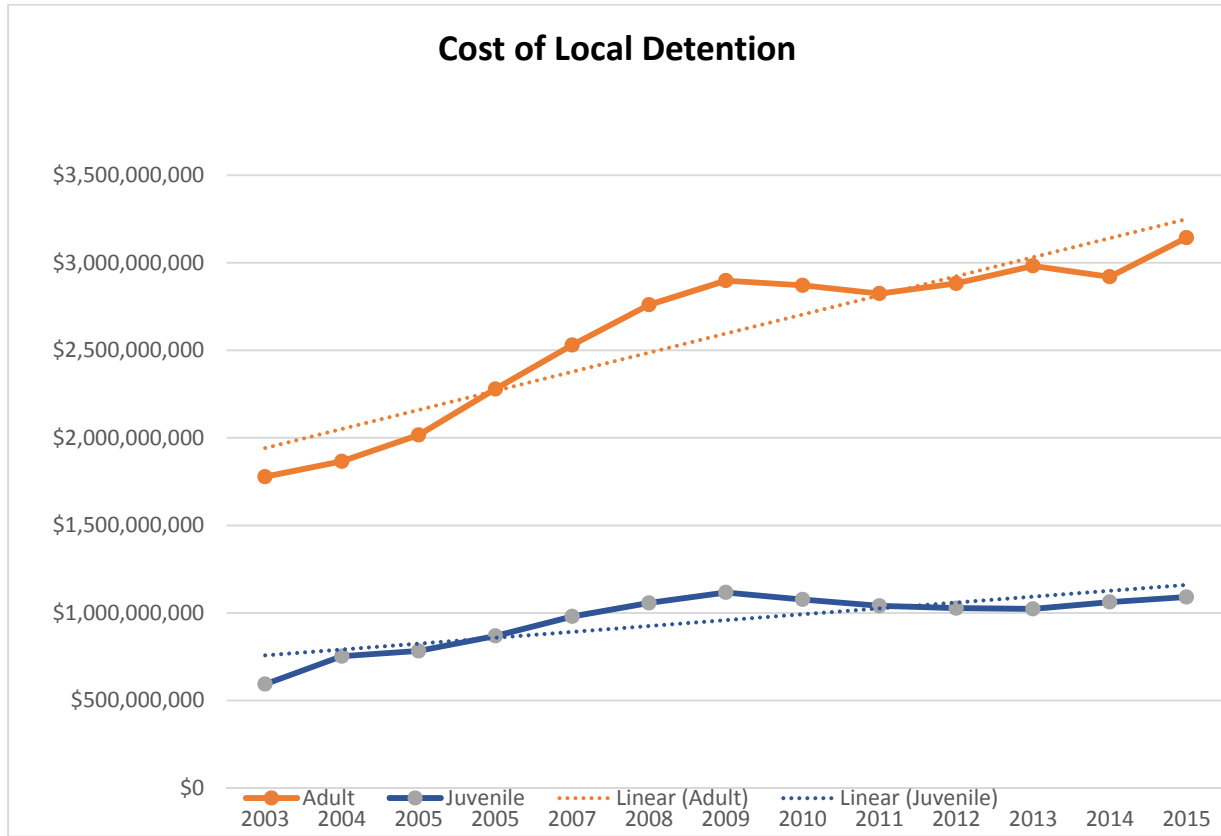

SECTION IV

Detention System Capital and Operating Expenses

The California State Controller's Office keeps records of community corrections facility capital and operational costs. The costs of safely operating and adequately staffing local detention facilities have increased in recent years. The most recent data is from FY 2015.

Figure 7 shows the cost of local adult detention from FY 2003 to FY 2015. The most recent cumulative local adult detention cost available, for FY 2015, is \$4.234 billion. This is up by \$1.151 billion from the previous year.

EXPLANATION OF RESULTS

The following pages contain the Jail Profile Survey (JPS) results for the Fourth Quarter of Calendar Year 2015. Page 2 contains the quarterly totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. The information below provides explanations and clarifications of the data presented.

Page 2

- Unless otherwise noted, projected totals are based upon the average per day for the variable in question. For example, there was an average of 73,891 inmates per day in local jails (excluding Type I's) during October through December 2015.
- For some variables (other than "ADP"), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- The number of "Bookings Per Month" is the average of the monthly totals for October, November, and December 2015.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., November 15, 2015): "Pretrial Release", "Early Release", "2 Strike Inmates", "3 Strike Inmates", "Felony Warrants", "Misdemeanor Warrants", "Juveniles in Custody", and "Criminal / Illegal Aliens [undocumented aliens]".
- "Assaults On Staff" are defined as the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the Fourth Quarter of Calendar Year 2015.
- Note: Totals are subject to slight variation due to rounding.

Please note:

- **Proposition 47** was voted into law on November 4, 2014, reducing penalties for certain low-level drug and property crimes from felony to misdemeanor.
- Each quarter, every county with Type II, III, and IV detention facilities submits their data to the BSCC. While we make every effort to review data for accuracy, including contacting individual counties for clarification, the BSCC cannot be responsible for data reporting errors made at the county level. This survey results report presents county data at the specific point in time in which it was posted (June 24, 2016). However, upon request of the county, data can be updated as needed.
- The JPS Quarterly Report has been published on the BSCC website in its current form since 2004. As of the Second Quarter 2015 JPS data posting, historical graphs and comments will no longer be included within the report. In an effort to create a better experience for users, the historical graphs will be transitioned over into our Tableau Public Dashboard, "Jail Population Trends." (http://www.bscc.ca.gov/m_data&research.php). By transitioning into the use of our existing Jail Population Trends Dashboard, users will see newly added visualizations that mimic those graphs previously featured in the Quarterly Report. These summary graphs include statewide data for particular JPS variables (i.e. Average Daily Population, Non-Sentenced & Sentenced ADP, etc), without jurisdiction exclusions seen in other dashboard tabs. Users can control these statewide graphs and exclude/include specific counties to create custom visualizations. The source data for these visualizations is the same data found in the JPS Online Querying tool (<https://app.bscc.ca.gov/joq/jps/QuerySelection.asp>).

BOARD OF STATE AND COMMUNITY CORRECTIONS JAIL PROFILE SURVEY

Reporting Period: October to December, 2015

County Jail Populations

ADP ^a	73,891 ^b

Felony	62,459
Misdemeanor	11,432
Total	73,891
Non-Sentenced Males	41,231
Non-Sentenced Females	5,677
Sentenced Males	22,956
Sentenced Females	4,027
Total	73,891
Maximum Security Inmates	22,660
Medium Security Inmates	32,250
Minimum Security Inmates	18,981
Total	73,891

Released Per Month Due to Lack of Space

Pretrial Release	6,053 ^f
Early Release	2,809 ^f
Total	8,862

Inmates with 2 and 3 Strikes

2 Strike Inmates	4,696 ^g
3 Strike Inmates	1,139 ^g
Total	5,835

Unservd Warrants

Felony Warrants	265,713 ^g
Misdemeanor Warrants	1,440,202 ^g
Total	1,705,915

Inmates From Other Jurisdictions

Housed on Federal Contract	2,948
Housed on Contract with CDC	10
From Other Counties on Contract	208
Awaiting Transport	1,501
Total	4,667

Other Jail Profile Survey Variables

Bookings Per Month	73,670 ^f
Juveniles in Custody	0 ^f
Criminal / Illegal Aliens	6,196
Assaults On Staff	403

- a. The Average Daily Population for all jurisdictions (excluding Type I's) does not include inmates in holding areas.
- b. Unless otherwise indicated, the numbers reported are the average across the days in the quarter.
- c. "Under the Roof" is the sum of the Average Daily Population plus the average daily number of inmates in Holding Areas.
- d. Totals may not be the exact sum of the subtotals due to rounding.
- e. The sum of all Highest One Day inmate population counts from all jurisdictions.
- f. These data are collected on a monthly basis, this figure is an average of the total numbers collected each month during this quarter.
- g. These data are one-day snapshots collected at the end of the quarter.

INTERPRETATION OF TABLE

Jail Populations: Fourth Quarter Calendar Year 2014 versus Fourth Quarter Calendar Year 2015 (page 5)

This table:

- summarizes the Average Daily Population (ADP) results for the 60 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (third column from left);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (second column from left);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (fourth column from left);
- lists the percentage of growth or decline in ADP for each jurisdiction (fifth column from left);
- lists the percentage of the overall state increase or decrease in ADP that is represented by each jurisdiction (sixth column from left);
- lists by jurisdiction the cumulative percentage increase and decrease in the state ADP (seventh column from left), starting with the jurisdiction with the largest percentage of increase and proceeding to the jurisdiction with the largest percentage of decrease;
- lists by jurisdiction the cumulative total increase and decrease in the state ADP (eighth column from left), starting with the jurisdiction with the highest increase first and proceeding to the jurisdiction with the highest decrease last; and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "Total Increase" in ADP (in this case 325) and "Total Decrease" in ADP (-4,109). Specifically, the jurisdictions experiencing increases had a total increase of 325 ADP, and the jurisdictions experiencing decreases had a total decrease of -4,109 ADP. Subtracting -4,109 from 325 produces the overall decrease of -3,784 between the Fourth Quarter of Calendar Year 2014 and the Fourth Quarter of Calendar Year 2015.
2. The Santa Barbara's Sheriff's Department's ADP increase of 87 is 26.8% of the total increase of 325. Twenty Six jurisdictions had increases (Santa Barbara Sheriff's Department to Mendocino Sheriff's Department), with two jurisdiction (Del Norte Sheriff's Department and Mono Sheriff's Department) reporting no change. When you get to Mendocino Sheriff's Department, you have accounted for 100% of the increase (100% of the cumulative total of 325).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (San Benito Sheriff's Department to Los Angeles Sheriff's Department). When you get to the bottom of the table, you have accounted for 100% of the total decrease of -4,109 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Santa Barbara Sheriff's Department, Solano Sheriff's Department, Humboldt Sheriff's Department, and Placer Sheriff's Department) is 49.9%. Four jurisdictions (Orange Sheriff's Department, Alameda Sheriff's Department, Santa Clara Corrections Department, and Los Angeles Sheriff's Department) account for 47.7% of the total decrease.
