JAIL PROFILE SURVEY

EXPLANATION OF RESULTS

The following pages contain the Jail Profile Survey results for the fourth quarter of 2004. Page 1 contains the quarterly totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. Pages 2 and 3 show the trend data for variables we have been tracking for the last ten years. The remainder of this page provides explanations and clarifications of the data presented.

Page 1

- Unless otherwise noted, "projected totals" are based upon the average per day for the variable in question. For example, there was an average of 76,466 inmates per day in local jails (excluding Type I's) during the three-month span of October to December 2004.
- For some variables (other than ADP), we did not receive complete data from all jurisdictions. In such instances, we used statistical procedures to estimate the statewide total.
- The number for "Bookings" is the average of the monthly totals for October, November, and December.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., November 15, 2004); Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.
- Assaults is the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the fourth quarter of 2004.

Pages 2 and 3

- The data in the 10-Year Summary tables are based upon survey data which the Board has gathered since the early 1980's.
- Prior to 1995, yearly averages were reported to the Board on an annual basis. Yearly averages from 1996 to the present time have been the average of the 12 calendar months. In 1995, the yearly figure reported is the fourth quarter average, since we do not have data from the first three quarters.

The ADP decreased to 76,466 in the 4th quarter of 2004. However, the average ADP for 2004 was 76,940 which is the highest annual ADP since 1998. As shown on the previous page, releases due to lack of bed space increased from a monthly average of 15,305 in the 3rd quarter of 2004 to 15,835 in the 4th quarter of 2004. Early releases cause ADP to be lower than what it would be if bed space was greater. The number of outstanding, unserved warrants also increased from 2,384,818 to 2,484,767 quarter to quarter.

The female population has been growing faster than the male population for the past several years.

Interpretation of Table:
JAIL POPULATIONS: 4th Quarter '03 versus 4th Quarter '04

This table:

- summarizes the ADP results for the 62 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (Column C);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (Column B);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (Column D);
- lists the percentage growth or decline in ADP for each jurisdiction (Column E);
- lists the percentage of the overall State increase or decrease in ADP that is represented by each jurisdiction (Column F);
- lists, by jurisdiction, the cumulative percentage increase and decrease in the State ADP starting with the jurisdiction with the highest percentage of the increase and proceeding to the jurisdiction with the highest percentage of the decrease (Column G);
- lists, by jurisdiction, the cumulative total increase and decrease in the State ADP starting with the jurisdiction with the highest increase and proceeding to the jurisdiction with the biggest decrease (Column H); and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "total increase" in ADP (in this case 1,779) and "total decrease" in ADP (-583). In other words, the jurisdictions experiencing increases had a total increase of 1,779 ADP; and the jurisdictions experiencing decreases had a total decrease of 583 ADP. Subtracting 583 from 1,779 produces the overall increase of 1,196 between the fourth quarter of 2003 and the fourth quarter of 2004.
2. The Orange County ADP increase of 422 is 23.7% of the total increase of 1,779. Thirty-six jurisdictions had increases (down to Amador Sheriff's Department) with 1 jurisdiction reporting no increase (Inyo Sheriff's Department). When you get to Inyo Sheriff's Department, you have accounted for 100% of the increases (100% of the cumulative total of 1,779).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Sierra Sheriff's Department to Los Angeles Sheriff's Department). When you get to the bottom of the table, you have accounted for 100% of the total decreases of 583 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Orange Sheriff's Department to Imperial Sheriff's Department) is 49.8%. In other words, four jurisdictions accounted for about 50% of the total ADP increase. Three jurisdictions (San Joaquin, San Francisco and Los Angeles Sheriffs' Departments) account for about 42% of the decreases.
