

3. PLAN FOR COMPLIANCE WITH THE FIRST THREE CORE PROTECTIONS OF THE JJDP A AND THE STATE'S COMPLIANCE MONITORING PLAN

A. Plan for Deinstitutionalization of Status Offenders (DSO)

California's Welfare and Institutions Code (WIC) requires that status offenders and nonoffenders must not be held in secure custody outside of specific situations. WIC § 601 defines status offenders in California and exceeds federal requirements by requiring that status offenders and delinquents be separated. WIC §207 dictates the situations and length of time that a status offender may be held in secure detention; this statute exceeds current federal requirements. WIC § 300 defines dependents (nonoffenders) in California, and WIC § 206 prohibits nonoffenders from being held in secure detention.

The BSCC is mandated to biennially inspect local juvenile detention facilities pursuant to WIC § 209 and adult jails and lockups pursuant to Penal Code (PC) § 6031 and WIC § 209.

DSO Rates

DSO violation rates in juvenile detention facilities have trended downward since 2005, with minimal fluctuation. Within the last several years, violations continue the downward trend. However, there has been a slight increase in total violations from 30 during the 2014 calendar year reporting period, to 39 during the October 1, 2015 to September 30, 2016 federal fiscal year reporting period. It is not known whether the two different data set year parameters affect the comparison of these two sets of data.

Alternatively, DSO violations in lockups decreased from 51 in calendar year 2015 to 37 during the October 1, 2015 to September 30, 2016 reporting period. BSCC staff have been providing increased targeted technical assistance to lockups with respect to status offenders and have streamlined our reporting forms over the past few years, leading to better data. Awareness of the issues and clearer understanding of reporting requirements by local facilities have attributed to the almost 27% decrease.

Strategy to Remain in Compliance

Juvenile Detention Facilities

The BSCC annually queries all county juvenile detention facilities within the state to determine whether they intend to hold status offenders as defined by WIC § 601, and whether they hold non-delinquent minors on contract with the federal government. Since the BSCC has been responsible for Compliance Monitoring, the state continues to receive 100% response from reporting agencies. Facilities' responses are entered into a database for analysis and are verified during an on-site inspection. Each county juvenile detention facility is biennially inspected pursuant to WIC § 209.

If a juvenile detention facility reports that it will be holding status offenders or federal minors (undocumented immigrant youth and youth in the custody of the Bureau of Indian Affairs), the facility is mandated by WIC § 207 to report the number and duration of secure detentions of such minors to the BSCC via the Status Offender Detention Report or the Federal Minors in Custody Report. The BSCC aggregates, analyzes and reports this data in accordance with JJDP A reporting requirements.

2017 Compliance Monitoring Plan

Any facility reporting that an adjudicated status offender has been securely detained subsequent to a violation of a valid court order (VCO) must complete and attach the VCO Exception checklist and accompanying minute order to ensure that the facilities are complying with the provisions of the JJDP. In addition, a minimum of 10% of the uses of the VCO are verified; Field Representatives will review the original data source to ensure compliance.

BSCC staff continually reviews all secure detentions identified on the Status Offender Detention Report and Federal Minors in Custody Report. If a violation is identified, a Field Representative contacts the facility via telephone to review the details of the detention and either confirm that a violation did indeed occur, or to determine if a reporting error was made. Technical assistance is offered during this follow-up. These secure detentions are also verified by a Field Representative during the on-site biennial inspection. Appropriate data is also reviewed by a Field Representative during the on-site biennial inspection to verify that nonoffenders (WIC 300) were not held in secure detention.

Continual technical assistance is conducted throughout the BSCC biennial inspection cycle, either via telephone or an on-site visit. In addition, a pre-inspection briefing is held prior to an on-site inspection, and the elements of the DSO core requirement are reiterated to the agency.

With respect to inspection of nonsecure juvenile facilities that hold nonoffenders (WIC 300), the California Department of Social Services periodically visits each of these facilities to ensure that they remain nonsecure.

The BSCC continues to target agencies with higher levels of DSO violations. Several agencies receive regular visits to verify DSO data. The self-reporting forms that agencies use to capture DSO data have been streamlined and enhanced for ease of use in past years.

Adult Facilities

Pursuant to WIC §210.2 (b), the BSCC annually queries all law enforcement facilities to determine if they contain a jail or lockup and, if so, whether they will hold minors for any period of time.

Pursuant to WIC §207.1 (d)(1)(F), adult facilities that hold minors are required to keep logs to track the number, duration, and reason for secure detention of minors. These logs become the basis for monthly reporting to the BSCC and for annual reporting to OJJDP.

BSCC staff verifies the number and duration of secure detentions in adult jails and lockups on a monthly basis. Field Representatives will contact a facility if it appears as though a violation of DSO has occurred to verify if a violation did indeed occur or to determine if a reporting error was made.

If violations are identified during the on-site inspection or through monthly reporting, the BSCC will provide targeted technical assistance and training to those agencies. Continual technical assistance is conducted throughout the BSCC biennial inspection cycle, either via telephone or during an on-site visit. In addition, a pre-inspection briefing is held prior to an on-site inspection, and the elements of the DSO core requirement are reiterated to the agency.

We will continue to provide targeted technical assistance to all agencies. Those agencies where violations are concentrated will receive additional technical assistance and training to determine how to discontinue the use of secure detention for status offenders.

B. Plan for Separation of Juveniles from Adult Offenders

WIC §207.1 (b), §208 (a) and California Code of Regulations, Title 15, Sections 1101, 1144 and 1161 relate specifically to the separation of minors from adult offenders in adult facilities. WIC §207.1 (h) relates specifically to co-located facilities. California statute exceeds federal requirements in many instances.

The BSCC is mandated to biennially inspect local juvenile detention facilities pursuant to WIC §209 and adult jails and lockups pursuant to PC §6031 and WIC §209.

Separation Violations

The number of separation violations has varied widely during the past decade. From 2002-2004, the BSCC reported zero violations. A high of 44 violations was reported in 2005 with immediate decreases in subsequent years until 2010 when there were no violations of the separation core requirement. As stated in California's previous Three-Year Plan, there was one documented situation which resulted in noncompliance with 42 U.S.C. § 5633(a)(12) during 2014. It resulted in an immediate removal of the youth with subsequent technical assistance provided to the facility. There were zero reported violations during the October 1, 2015 to September 30, 2016 federal fiscal year reporting period.

Targeted training and technical assistance continue to be provided at all levels of service to ensure compliance with the separation core requirement. Where there are isolated incidents of violations (such as the case in 2014), the BSCC collaborates with service providers at all levels of the juvenile justice system to try and ensure that such violations do not occur in the future.

Strategy to Maintain Compliance

There are several mechanisms in place to try and ensure that instances of noncompliance do not occur in the future. First and foremost, BSCC Field Representatives conduct regular compliance monitoring inspections of all detention facilities in the state. During these inspections, compliance with both state and federal law relative to separation is verified; focus is given to programs where contact may occur between adults and juveniles. The BSCC continues to closely monitor situations in which there is potential for contact between adult inmates and minors in detention facilities.

Additionally, the BSCC provides ongoing pre-inspection training, new manager/supervisor training, and annual training regarding the separation core requirement.

Adult Facilities

Pursuant to WIC §210.2 (b), the BSCC annually queries all local jails and lockups to determine if they will hold minors for any length of time. If a facility answers this query positively, WIC §207.1 (e) requires that the BSCC provide technical assistance specific to minors in custody to the agency.

The BSCC verifies that separation of minors and adult offenders is appropriate during an on-site inspection; each adult facility that holds minors is biennially inspected pursuant to WIC §209 (a) and (b) (this includes jails, lockups and court holding facilities). Agencies that hold minors are also required to develop policy and procedures to ensure the separation of minors and adult offenders pursuant to Title 15, California Code of Regulations.

Continual technical assistance is conducted throughout the BSCC biennial inspection cycle, either via telephone or an on-site visit. In addition, a pre-inspection briefing is held prior to an on-site inspection, and the elements of the separation core requirement are reiterated to the agency.

Juvenile Detention Facilities

The BSCC biennially inspects all county juvenile detention facilities and training schools, and annually inspects state training schools. During each on-site inspection, Field Representatives verify that no programs are operating within the facility that allow inmate workers to come into contact with minors.

The BSCC provides continual technical assistance and training to county probation departments reiterating the separation core requirement. These agencies are aware that they violate both federal and state law when there is contact between adult inmates and minors. In addition, a pre-inspection briefing is held prior to an on-site inspection, and the elements of the separation core requirement are reiterated to the agency.

Co-located Facilities

There is currently only one co-located facility in California: Yolo County Juvenile Hall. Pursuant to WIC §207.1 (h), co-located facilities must meet the following criteria:

- The juvenile facility is physically or architecturally separate from the portion that holds adult offenders so that contact between the two is prevented;
- Shared non-residential programs only occur when there are written policies and procedures to assure that there is time-based use of those areas that prevents contact between juveniles and adult offenders;
- Juvenile facility has a dedicated and separate staff from the portion that holds adult offenders (this requirement exceeds federal requirements); and
- Juvenile facility complies with all applicable state and local statutory, licensing and regulatory requirements for juvenile facilities of this type.

BSCC staff conducts annual inspections of co-located facilities to verify compliance with federal and state criteria and with California Code of Regulations, Title 15, Minimum Standards for Juvenile Facilities. BSCC staff also provides ongoing technical assistance to these facilities, beginning with the planning and construction review phases.

C. Plan for Removal of Juveniles from Adult Jails and Lockups

WIC §207.1 dictates that minors shall not be held in an adult jail unless they are under the jurisdiction of the adult court, or are held under specific circumstances and requirements specific to separation of minors and adult inmates. This statute mirrors the federal jail removal requirement for minors in secure detention and exceeds federal regulation by imposing a six-hour limit on the non-secure detention of minors. WIC §210.2 (a) authorizes the BSCC to develop standards for law enforcement facilities that hold minors to ensure compliance with WIC §207.1. California Code of Regulations, Title 15, Articles 8-10 relate specifically to minors in adult facilities.

The BSCC is mandated to biennially inspect adult jails and lockups pursuant to PC §6031 and WIC §209.

Rates of Jail Removal Violations

The majority of jail removal violations occur when a minor has been charged with a serious crime and agencies exceed their six-hour exception during interviews and interrogation. Other common reasons include delays in parents picking up their child and delays in having the minor transported to a juvenile detention facility. Law enforcement agencies are reminded that these situations, while sometimes unavoidable, do constitute violations of both federal and state law.

To mitigate violations, the BSCC continues to staff full-time compliance monitoring consultants to provide service to the field as the number of facilities within California's compliance monitoring universe continue to increase. Our compliance monitoring consultants continue to provide targeted training and technical assistance to agencies relative to the jail removal core requirement on an annual basis. Over the last decade, the total number of jail removal violations have decreased overall. The total number of jail removal violations in calendar year 2015 was 66; however, for the October 1, 2015 to September 30, 2016 federal fiscal year reporting period there has been an increase to 113. This increase is, in part, due to the inclusion of accused and adjudicated status offender DSO data (37 violations). Our jail removal violations continue to be instances where extensive investigations for serious crimes prohibit police agencies from releasing the youth to a juvenile detention center or releasing from custody within six hours. Due to the increase this reporting period, BSCC staff will be reviewing trends and provide targeted training for those agencies that are most in need. We are generally confident that our local agencies refrain from keeping youth in secure detention longer than six hours without a reasonable cause.

Strategy for Remaining in Compliance

Pursuant to WIC §210.2 (b), the BSCC annually queries all law enforcement facilities to determine if they contain a jail or lockup and, if so, if they will hold minors for any period of time.

Pursuant to WIC §207.1 (d)(1)(F), adult facilities that hold minors are required to keep logs to track the number, duration, and reason for secure detention of minors. These logs become the basis for monthly reporting to the BSCC and for annual reporting to OJJDP. Field Representatives verify the number, duration and reason for secure detention during each on-site biennial inspection. Appropriate data is reviewed to identify violations of Jail Removal. If violations are identified during the on-site inspection or through monthly reporting, the BSCC will provide targeted technical assistance and training to those agencies.

BSCC staff also verifies the number and duration of secure detentions in adult jails and lockups on a monthly basis. Field Representatives will contact a facility if it appears as though a violation of Jail Removal has occurred to verify if a violation did indeed occur or to determine if a reporting error was made. Technical assistance is offered during this contact and is followed up during the on-site biennial inspection. Note: California does not use the rural exception.

The BSCC currently employs full-time compliance monitor consultants who annually inspect lockups that hold minors in secure detention. At this inspection, data will be collected and analyzed and the facility's classification will be verified. It is anticipated that increasing the frequency of inspection will enhance compliance with the jail removal core requirement. Compliance monitors will continue to verify those facilities that are classified as non-secure at least once every three years. Field Representatives will continue to conduct inspections as mandated by state law.

SAG Role in Maintaining Compliance with Three Core Protections

The SAG/SACJJDP oversees California's compliance with the JJDP. The SACJJDP will continue to be kept apprised of the BSCC's plan for compliance monitoring and will be involved in the identification of barriers and strategies for compliance monitoring. The SACJJDP is also required to review and approve the state's plan for compliance monitoring as part of its oversight.

D. Plan for Compliance Monitoring for the First Three Core Protections of the JJDP

- 1) **Policy and Procedures.** Please see BSCC Attachment 1, BSCC Minors in Custody Compliance Monitoring Manual.
- 2) **Monitoring Authority.** Please see BSCC Attachment 1, BSCC Minors in Custody Compliance Monitoring Manual.
- 3) **Monitoring Timeline.** Please see BSCC Attachment 1, BSCC Minors in Custody Compliance Monitoring Manual and BSCC Attachment 2, BSCC Monitoring Authority and Violation Procedures.
- 4) **Violation Procedures.** Please see BSCC Attachment 2, BSCC Monitoring Authority and Violation Procedures.
- 5) **Barriers and Strategies.**
 - a) The volume of admissions to juvenile detention facilities, adult jails and lockups makes it difficult for Field Representatives/Consultants to review all appropriate data outside of the biennial inspection cycle.
 - Law enforcement agencies and probation departments submit regular data to the BSCC via the Jail and Juvenile Detention Profile Surveys and monthly data collection. This data is continually reviewed; this data supplements regular on-site reviews of data.
 - The BSCC has streamlined its data collection material to ensure ease of submission from law enforcement agencies and probation departments.
 - b) The high number of facilities in California makes it difficult to verify all appropriate data annually on-site.
 - The BSCC has retained two additional staff to concentrate solely on Compliance Monitoring Inspections as a supplement to the work of the Field Representatives.
 - c) The turnover in staff of these facilities creates a gap of knowledge with respect to core requirements in some of these facilities; constant training is required.
 - The BSCC provides on-going technical assistance to law enforcement agencies and probation departments, both general and targeted. If a facility's data appears incongruous with previous data, or if there is an increase in violations, specific technical assistance and training will be provided.
 - The BSCC developed training aids specific to the Jail Removal core requirement.
 - The BSCC completed a 40-minute training video that outlines federal and state requirements relative to minors in detention. The training video is accompanied by a workbook designed to aid the detention facility staff.
 - BSCC staff provides pre-inspection briefings to law enforcement agencies and probation departments. All information relevant to the upcoming inspection is provided, including detailed information on core requirements and essential data.

6) Definition of Terms. Please see BSCC Attachment 3, BSCC Minors in Custody Compliance Monitoring Manual, Attachment A- Definitions. California uses federal definitions in the monitoring process.

7) Identification of the Monitoring Universe. Please see BSCC Attachment 1, BSCC Minors in Custody Compliance Monitoring Manual.

The Compliance Monitoring Universe is updated annually through a survey distributed to all law enforcement agencies and probation departments. This information is compared with law enforcement and detention facilities throughout the state via information available from constituent groups (e.g., California State Sheriff's Association, Chief Probation Officers of California, COPSWEST, USACOPS.com, etc.).

During regularly scheduled monitoring visits, Field Representatives and Consultants will ensure that each agency's facilities are adequately represented in the Compliance Monitoring Universe.

Pursuant to PC § 6029, the BSCC is also required to review the plans and specifications for any local detention facilities and local juvenile detention facilities for compliance with Minimum Standards. As facilities are planned and constructed, they are appropriately added to the Compliance Monitoring Universe.

8) Classification of Monitoring Universe. Many of the facilities in California's Compliance Monitoring Universe are classified according to their definition. Please see BSCC Attachment 3, BSCC Minors in Custody Compliance Monitoring Manual, Attachment A - Definitions.

The classification of the universe is linked to the identification of the universe. As mentioned above, each facility in the universe is annually queried to determine initial classification; classification will be verified during an on-site visit.

9) Inspection of Facilities. Please see BSCC Attachment 1, BSCC Minors in Custody Compliance Monitoring Manual and BSCC Attachment 2, BSCC Monitoring Authority and Violation Procedures. Refer specifically to WIC § 209 and PC § 6031.

10) Data Collection and Verification. Specific detail regarding data collection and verification is included in the description of each core requirement's Strategy for Maintaining Compliance. Each facility identified self-reports annual data relevant to their classification, and if applicable, submits monthly reports relevant to minors in their detention facilities. All self-reported data is reviewed upon receipt and verified by comparing the data with the detention logs or admission records that contain applicable information.

Minors in Custody Compliance Monitoring Manual

Board of State and Community Corrections
600 Bercut Drive
Sacramento CA 95811
916.445.5073

March 2013

Monitoring Authority:

The Board of State and Community Corrections (BSCC) is the Designated State Agency (DSA) to monitor compliance with the Federal Juvenile Justice and Delinquency Prevention Act (JJDPA).

OJJDP distributes local juvenile justice and delinquency prevention monies via Title II Formula Block grants based upon compliance with the four core protections of the JJDPA:

1. Deinstitutionalization of Status Offenders
2. Jail Removal (6 hour rule)
3. Separation
4. Disproportionate Minority Contact

If there are instances of noncompliance with any of the core requirements, California's entire Title II funding stream is in jeopardy. The BSCC annually reports its compliance monitoring findings to the Office of Juvenile Justice and Delinquency Prevention (OJJDP).

California's Welfare and Institutions Code Section 209(f) grants the BSCC authority to inspect and collect relevant data from any facility that may be used for the secure detention of minors, in accordance with the federal JJDPA of 2002 (42 U.S.C. Sec. 5601 et seq.).

Definitions

Federal definitions are used for compliance monitoring purposes. Please see Attachment A for relevant definitions.

Classification:

Each facility in the Compliance Monitoring Universe will be classified according to:

1. **BSCC Type** (California Type) and
2. **Fed Class** (Federal Classification).

BSCC Types		
AS	Administrative Station	Law enforcement facilities that do not have a locked room or cuffing fixture available.
ASC	Administrative Station with Cuffing Fixture	Law enforcement facilities that do not have a locked room to hold adults, but do contain a cuffing fixture for the secure detention of adults.
LU	Lock Up	A room or secure enclosure under the control of the sheriff or other peace officer that is primarily for the secure detention of adults upon arrest. A LU is NOT a local detention facility according to Penal Code Section 6031.4 and does not contain a secure perimeter around the holding area.
JNA	Juvenile No Adults	A law enforcement facility that contains secure holding areas for JUVENILES ONLY. There is no secure holding of adults in such facilities.
P78	Pre 78 Temporary Holding Facility	A detention facility that holds prisoners for less than 24 hours, is similar in physical plant layout to a Temporary Holding Facility (containing a secure perimeter) with the exception that it was constructed prior to January 1, 1978.
TH	Temporary Holding Facility	A Temporary Holding Facility that will NOT hold minors in secure detention within the jail facility. These facilities may hold minors in secure detention elsewhere in the building.
THJ	Temporary Holding Facility	A Temporary Holding Facility that will hold minors in SECURE detention WITHIN the jail facility.
TI	Type I Facility	A Type I Facility that will NOT hold minors in secure detention within the jail facility. These facilities may hold minors in secure detention elsewhere in the building.
TIJ	Type I Facility	A Type I Facility that will hold minors in SECURE detention WITHIN the jail facility.

Fed Class		
LU	Lock Up	Facility will detain minors in SECURE detention in a cell, locked room or on a cuffing fixture.
NS-LU	Non Secure Lock Up	Facility will NOT detain minors in secure detention.

Identification via Annual Facility Reporting:

- If a facility reports that they will hold minors in SECURE detention on the Annual Survey of Law Enforcement Facilities, they will initially be classified as LU, or SECURE Lock Up.
 - If a facility reports that they will not hold minors in secure detention on the Annual Survey of Law Enforcement Facilities, they will initially be classified as NS-LU, or NONSECURE Lock Up.
1. This information will initially be recorded on the Compliance Monitoring Database by the Compliance Monitoring Analyst.
 2. This information must be verified by the Compliance Monitor when conducting on-site inspection or verification and shall be recorded on the JJDPA Compliance Monitoring Inspection/Verification Report.
 3. The Compliance Monitor must notify the Compliance Monitoring Analyst if a facility's BSCC Type or Fed Class has changed.
 4. The Compliance Monitoring Analyst will update the Compliance Monitoring Database to reflect current classification.

Monitoring Timetable:

1. Compliance Monitors will inspect and/or verify facilities in the Compliance Monitoring Universe on-site annually or triennially, depending on the type of facility. Monitoring is conducted using Calendar Years.
2. Compliance Monitors must consult the Compliance Monitoring MID Tracking Database to determine the priority of inspections and verifications.
3. Inspection reports are submitted to the CM Analyst upon completion; generally, the CM Analyst is copied on the delivery to the agency.

Annual Inspection

The following types of facilities will be inspected ANNUALLY:

- Facilities that are classified as LU and report that they intend to hold minors in secure detention on the BSCC Annual Survey of Law Enforcement Facilities during the most recent calendar year.
- Law Enforcement Facilities (LEF) that contain lockups that submit data on minors in secure detention, regardless of classification.

Triennial Verification

The following types of facilities will be inspected TRIENNIALLY:

- Facilities that are classified as NS-LU.
- LEF that contain lockups and report they will not hold minors in secure detention on the BSCC Annual Survey of Law Enforcement Facilities during the most recent calendar year.

It is expected that each facility in the Compliance Monitoring Universe will be inspected and/or verified once every three years.

INSPECTION OF FACILITIES

Preparation:

1. Notify the agency of intention of inspection.
Contact information is located on the Compliance Monitoring Database on either the "Secure Under 6" or the "Data" tabs.
 - a. At least two (2) week's advance should be given.
 - b. Confirm by e-mail (preferred) or telephone. It is not necessary to send a formal notice of inspection via snail mail.

2. Review previous year and current year's Annual Survey of Law Enforcement Facilities to verify information.
Data is located on the Compliance Monitoring Database on the "Inspection Dates and Surveys" tab. Survey is marked in orange when received (blue if missing); Current data is on tab marked "Dates & Reports" and survey is in green when received (blue if missing).
 - a. Transfer relevant information onto JJDP A Compliance Monitoring Inspection/Verification Report. (Be sure to include BSCC Type, if known, and Fed Class).
 - b. Make a note of any missing Annual Surveys.

3. Review previous year and current year's submitted data for SECURE detentions, including WIC 601 and WIC 300s.
This information is located on the Compliance Monitoring Database on the "Secure Over 6", "Secure Under 6", "601 Secure" and "300 Secure" tabs. Current data is on tab marked "Dates and Reports."
 - a. Make a note of any missing monthly data.

4. Request policy and procedure for the secure detention of minors for review prior to inspection, or request that it is available at the time of inspection.

On-Site Procedures:

1. Review data on the JJDP A Compliance Monitoring Inspection/Verification Report.
 - a. Complete contact information if not already done so.

2. Confirm receipt of the Annual Survey for Law Enforcement Facilities and confirm that Annual Certification has been completed.
 - a. Request copy of most recent completed Annual Survey for Law Enforcement Facilities if one has NOT already been received .
 - b. Provide copy to Compliance Monitoring Analyst, if necessary.

3. Review minors in custody data; if missing data was noted during pre-inspection review, verify and report to CM Analyst.

4. Review physical plant to determine where minors may be held in secure detention.

- a. Indicate location on JJDPa Compliance Monitoring Inspection/Verification Report.
5. Review policy and procedures specific to the secure detention of minors.
6. Review previous year and current year's Secure Detention of Minors documentation.
 - i. Charge**
 1. If a 601/Status Offense is the only charge, this is a VIOLATION of the DSO core requirement. Record in appropriate month/year.
 2. If "WIC777", "Probation Violation" or "Warrant" is the only charge, determine what the underlying offense is. If it is not a 602/Criminal Offense, this is a VIOLATION of the DSO core requirement. Record in appropriate month/year.
 - ii. Location of detention**
 1. If minors are regularly held where adult inmates are held, there is potential for violation of the Separation Core Requirement. Review physical plant and policies related to the separation of minors and adult inmates to verify actual practice.
 - iii. Length of detention**
 1. If detention is over six (6) hours, this is a VIOLATION of the Jail Removal core requirement. Record in appropriate month/year.
7. Review findings of inspection with contact person and/or Agency Head.
 - a. Inform the agency if there is any corrective action required and the due date for such corrective action.

Follow Up Activities:

1. Compliance Monitors will complete inspection reports and save in applicable format.
2. JJDPa Compliance Monitoring Inspection/Verification Reports must be reported to the agency within sixty (60) days of inspection.
3. If re-inspection or verification is needed, arrange details with agency.
4. If there is question about the type of facility, or if there are concerns with Title 15 or WIC Code compliance, the Compliance Monitor should contact the assigned Field Representative for guidance and appropriate follow up.

Distribution of Reports:

1. JJDPa Compliance Monitoring Inspection/Verification Reports shall be saved as a PDF and e-mailed to the Agency Head and/or agency contact.

- a. If the agency requests a hard copy, notify the Compliance Monitoring Analyst.
2. A final PDF copy of the JJDPa Compliance Monitoring Inspection/Verification Report will be e-mailed to the Compliance Monitoring Analyst. The Compliance Monitoring Analyst will save the e-copy in the appropriate folder on the P Drive.
 - a. If there are changes to the number of violations, inform CM Analyst.

Identification of the Monitoring Universe

1. The Compliance Monitoring Analyst is responsible for maintaining the Compliance Monitoring Databases.
2. The Compliance Monitoring Analyst is responsible for receiving Annual Surveys of Law Enforcement Facilities and the Monthly Reports on the Detention of Minors.
3. The Compliance Monitors will be responsible for contacting agencies to request missing surveys on a regular basis, as determined by the Compliance Monitoring Analyst.
4. The Compliance Monitoring Analyst will provide the Compliance Monitors with information relative to missing data.
5. The Compliance Monitors will report findings to the Compliance Monitoring Analyst, who will update relevant information in the Compliance Monitoring Database(s).

CALIFORNIA'S MONITORING AUTHORITY AND VIOLATION PROCEDURES

California Statutory References

Welfare and Institutions Code Section 207 (Excerpt). *Status Offenders in Detention*

(e) Every county shall keep a record of each minor detained under subdivision (b), the place and length of time of the detention, and the reasons why the detention was necessary. Every county shall report this information to the Board of Corrections on a monthly basis, on forms to be provided by that agency.

The board shall not disclose the name of the detainee, or any personally identifying information contained in reports sent to the Youth Authority under this subdivision.

Welfare and Institutions Code Section 209. *BSCC Inspections and Suitability*

(a) The judge of the juvenile court of a county, or, if there is more than one judge, any of the judges of the juvenile court shall, at least annually, inspect any jail, juvenile hall, or special purpose juvenile hall that, in the preceding calendar year, was used for confinement, for more than 24 hours, of any minor.

The judge shall promptly notify the operator of the jail, juvenile hall, or special purpose juvenile hall of any observed noncompliance with minimum standards for juvenile facilities adopted by the Board of Corrections under Section 210. Based on the facility's subsequent compliance with the provisions of subdivisions (d) and (e), the judge shall thereafter make a finding whether the facility is a suitable place for the confinement of minors and shall note the finding in the minutes of the court.

The Board of Corrections shall conduct a biennial inspection of each jail, juvenile hall, lockup, or special purpose juvenile hall situated in this state that, during the preceding calendar year, was used for confinement, for more than 24 hours, of any minor. The board shall promptly notify the operator of any jail, juvenile hall, lockup, or special purpose juvenile hall of any noncompliance found, upon inspection, with any of the minimum standards for juvenile facilities adopted by the Board of Corrections under Section 210 or 210.2.

Consequences for noncompliance. If either a judge of the juvenile court or the board, after inspection of a jail, juvenile hall, special purpose juvenile hall, or lockup, finds that it is not being operated and maintained as a suitable place for the confinement of minors, the juvenile court or the board shall give notice of its finding to all persons having authority to confine minors pursuant to this chapter and commencing 60 days thereafter the facility shall not be used for confinement of minors until the time the judge or board, as the case may be, finds, after reinspection of the facility that the conditions that rendered the facility unsuitable have been remedied, and the facility is a suitable place for confinement of minors.

The custodian of each jail, juvenile hall, special purpose juvenile hall, and lockup shall make any reports as may be requested by the board or the juvenile court to effectuate the purposes of this section.

(b) The Board of Corrections may inspect any law enforcement facility that contains a lockup for adults and that it has reason to believe may not be in compliance with the requirements of subdivision (d) of Section 207.1 or with the certification requirements or standards adopted under Section 210.2. A judge of the juvenile court shall conduct an

annual inspection, either in person or through a delegated member of the appropriate county or regional juvenile justice commission, of any law enforcement facility that contains a lockup for adults which, in the preceding year, was used for the secure detention of any minor. If the law enforcement facility is observed, upon inspection, to be out of compliance with the requirements of subdivision (d) of Section 207.1, or with any standard adopted under Section 210.2, the board or the judge shall promptly notify the operator of the law enforcement facility of the specific points of noncompliance.

Consequences for noncompliance. If either the judge or the board finds after inspection that the facility is not being operated and maintained in conformity with the requirements of subdivision (d) of Section 207.1 or with the certification requirements or standards adopted under Section 210.2, the juvenile court or the board shall give notice of its finding to all persons having authority to securely detain minors in the facility, and, commencing 60 days thereafter, the facility shall not be used for the secure detention of a minor until the time the judge or the board, as the case may be, finds, after reinspection, that the conditions that rendered the facility unsuitable have been remedied, and the facility is a suitable place for the confinement of minors in conformity with all requirements of law.

The custodian of each law enforcement facility that contains a lockup for adults shall make any report as may be requested by the board or by the juvenile court to effectuate the purposes of this subdivision.

(c) The board shall collect biennial data on the number, place, and duration of confinements of minors in jails and lockups, as defined in subdivision (i) of Section 207.1, and shall publish biennially this information in the form as it deems appropriate for the purpose of providing public information on continuing compliance with the requirements of Section 207.1.

Welfare and Institutions Code Section 210. *BSCC Minimum Standards for Operation of Juvenile Halls*

The Board of Corrections shall adopt minimum standards for the operation and maintenance of juvenile halls for the confinement of minors.

Welfare and Institutions Code Section 210.2. *BSCC Minimum Standards for Minors in Lockups*

(a) The Board of Corrections shall adopt regulations establishing standards for law enforcement facilities which contain lockups for adults and which are used for the temporary, secure detention of minors upon arrest under subdivision (d) of Section 207.1. The standards shall identify appropriate conditions of confinement for minors in law enforcement facilities, including standards for places within a police station or sheriff's station where minors may be securely detained; standards regulating contact between minors and adults in custody in lockup, booking, or common areas; standards for the supervision of minors securely detained in these facilities; and any other related standard as the board deems appropriate to effectuate compliance with subdivision (d) of Section 207.1.

(b) Every person in charge of a law enforcement facility which contains a lockup for adults and which is used in any calendar year for the secure detention of any minor shall certify annually that the facility is in conformity with the regulations adopted by the board under subdivision (a). The certification shall be endorsed by the sheriff or chief of police of the

jurisdiction in which the facility is located and shall be forwarded to and maintained by the board. The board may provide forms and instructions to local jurisdictions to facilitate compliance with this requirement.

Penal Code 6030. (Excerpt) *BSCC Minimum Standards for Adult Detention Facilities*

(a) The Corrections Standards Authority shall establish minimum standards for state and local correctional facilities. The standards for state correctional facilities shall be established by January 1, 2007. The authority shall review those standards biennially and make any appropriate revisions.

Penal Code 6031. *BSCC Inspection of Adult Detention Facilities*

(a) The Board of Corrections shall inspect each local detention facility in the state biennially.

(b) This section shall become operative on July 1, 1997.
