

(2024-2025) Annual Plan

Date: 4/29/2024

County Name: Orange

Contact Name: Jamie Tran

Telephone Number: 714-834-2320

E-mail Address: jamie.tran@ocgov.com

Instructions:

Government Code Section 30061(b)(4) and Welfare & Institution Code Section 1961(b) call for consolidation of the annual plans required for JJCPA and YOBG.

Please submit your most up-to-date consolidated plan. The following is a standardized template for a consolidated county plan. If you find it helpful to use this template, please do so. Each field must be completed before submitting your plan to the BSCC. If you have nothing to report for a field, please indicate 'N/A'. At the end of the template please press the 'Submit' button to be recorded with the BSCC. Your work will be saved each time you log in, if you need to make any edits.

Your Submission will be posted, as submitted, to the BSCC website. jamie.tran@ocgov.com

If you have any questions on completing your annual plan, or wish to use your own plan, please email:

JJCPA-YOBG@bscc.ca.gov

Juvenile Justice Plan

Part I. Countywide Service Needs, Priorities and Strategy

- A. Assessment of Existing Services
- B. Identifying and Prioritizing Focus Areas
- C. Juvenile Justice Action Strategy
- D. Comprehensive Plan Revisions

Part II. Juvenile Justice Crime Prevention Act (JJCPA)

- A. Information Sharing and Data Collection
- B. Juvenile Justice Coordinating Councils
- C. Funded Programs, Strategies and/or System Enhancements

Part III. Youthful Offender Block Grant (YOBG)

- A. Strategy for Non-707(b) Offenders
- B. Regional Agreements
- C. Funded Programs, Placements, Services, Strategies and/or System Enhancements

**Part I. Service Needs, Priorities & Strategy
(Government Code Section 30061(b)(4)(A))**

A. Assessment of Existing Services

Include here an assessment of existing law enforcement, probation, education, mental health, health, social services, drug and alcohol, and youth services resources that specifically target at-risk juveniles, juvenile offenders, and their families.

Orange County law enforcement consists of 26 city police agencies, the Orange County Sheriff's Department, the Probation Department, the District Attorney's Office, and the Public Defender's Office.

In addition to local school districts, the Orange County Department of Education (OCDE) provides educational services. OCDE provides alternative schools for youth who have been unsuccessful in the local school districts and in the Probation Department operated juvenile facilities.

The Orange County Health Care Agency (HCA) provides mental health and substance use therapy at community clinics throughout Orange County, in youth reporting centers, and in juvenile facilities. HCA and the Orange County Social Services Agency (SSA) also provide wraparound services for youth involved in the juvenile dependency/delinquency system. Additionally, there are many community-based organizations that collaborate in working with system-involved youth and their families, including the Orange County Bar Foundation, Waymakers, Padres Unidos, Boys & Girls Club of Garden Grove, Project Kinship, various faith-based organizations, and many other secular human service organizations.

Describe what approach will be used to facilitate collaboration among the organizations listed above and support the integration of services.

Juvenile Justice Services are coordinated by various multi-agency collaborative groups, including the Orange County Juvenile Justice Commission, the Orange County Criminal Justice Coordinating Council, the Juvenile Justice Coordinating Council, and the Orange County Superior Court Blue Ribbon Commission. These bodies make determinations and provide oversight in the use of resources and the initiatives undertaken to address juvenile dependency/delinquency services.

B. Identifying and Prioritizing Focus Areas

Identify and prioritize the neighborhoods, schools, and other areas of the county that face the most significant public safety risk from juvenile crime.

One of the priorities has been to focus intervention and services to the zip codes identified as having the highest arrest rates in Orange County. These areas are located in the cities of Santa Ana and Anaheim, the two largest cities by population in Orange County. These zip codes include areas with diverse populations and high levels of gang activity, narcotics sales, and substance use. The Probation Department, local law enforcement and our community-based partners have targeted these areas for human services interventions, as well as law enforcement suppression activities.

C. Juvenile Justice Action Strategy

Describe your county's juvenile justice action strategy. Include an explanation of your county's continuum of responses to juvenile crime and delinquency as well as a description of the approach used to ensure a collaborative and integrated approach for implementing a system of swift, certain, and graduated responses for at-risk youth and juvenile offenders.

The Orange County Juvenile Justice Strategy begins with a citation or arrest by a law enforcement agency. The Probation Department screens cases through the Non-Custody and Custody Intake process and determines an appropriate course of action.

Should formal court handling be required, the court has various dispositional options: informal handling, deferred entry of judgment (DEJ), or supervision; with or without wardship declared.

Whenever possible, youth are diverted from the juvenile justice system. The Probation Department operates under the risk/needs responsivity principle where the focus is on working with high-risk youth. Graduated sanctions are used to ensure an appropriate response to delinquent behavior. The Probation Department has developed non-custodial sanctions, including Youth Reporting Center locations (day reporting centers providing on-site school and treatment programs). Probation Officers act as case managers, making referrals to community-based organizations or other county agencies to provide services, such as mental health, counseling, substance use counseling, gang intervention, or wraparound services. Probation Officers also provide cognitive-behavioral interventions proven effective at reducing recidivism, such as Effective Practices in Community Supervision (EPICS). Probation Officers also offer incentives to youth for positive behavior and compliance with terms and conditions of probation. Should the court order a commitment to a juvenile facility, the Probation Department operates Juvenile Hall for secure detention, as well as two (2) camp facilities where committed youth receive treatment services. The treatment provided includes mental health counseling, substance use counseling, sex offender treatment, and cognitive-behavioral programs, including Aggression Replacement Training, Thinking for a Change, Decision Points, and EPICS. The Orange County Probation Department has been involved with Juvenile Detention Alternatives Initiative resulting in a significant drop in overall juvenile crime incarceration. For appropriate cases, the use of diversion programs has made an impact on juvenile detention and evidence-based practices have proven to reduce recidivism.

D.Comprehensive Plan RevisionsDescribe how your Plan has been updated for this year.

The Annual Plan is a collaborative effort across county departments and highlights the programming in place under the JJCPA. The Annual Plan's main county contributors include the District Attorney's Office, the Health Care Agency, the Sheriff's Department, the Public Defender's Office, and the Probation Department. County departments request funding under the JJCPA programs based on State available funding. Funding requests are evaluated by the County Budget Office and a recommendation is made to the Orange County Juvenile Justice Coordinating Council. Each year, the Annual Plan, including the budget allocations, is approved by the Orange County Juvenile Justice Coordinating Council, which includes input from the non-county/community-based organizations.

If your Plan has not been updated this year, explain why no changes to your plan are necessary.

N/A

**Part II. Juvenile Justice Crime Prevention Act (JJCPA)
(Government Code Section 30061(b)(4))**

A. Information Sharing and Data Describe your information systems and their ability to facilitate the sharing of data across agencies within your county. Describe the data obtained through these systems and how those data are used to measure the success of juvenile justice programs and strategies.

The Probation Department operates a client management system that was developed internally. The system includes a risk/needs assessment to determine a youth's risk to recidivate. The system provides access to a comprehensive set of data on court orders, recidivism, probation violations, contact information, family information, interventions, resource referrals, substance use, gang involvement, and special needs. Information is shared with HCA and SSA based on the need to share data in order to provide appropriate services. The Probation Department's Research Division extracts data from the system to provide required reports and to assist management in making data-driven decisions.

B. Juvenile Justice Coordinating Councils

Does your county have a fully constituted Juvenile Justice Council (JJCC) as prescribed by Welfare & institutions Code 749.22?

no

If no, please list the current vacancies that exist on your JJCC, when those vacancies occurred, and your plan for filling them.

The Orange County JJCC (OCJJCC) has a current vacant council member, the Business Representative. The OCJJCC is expected to fill this seat.

C. Funded Programs, Strategies and/or System Enhancements

JJCPA Funded Program(s), Strategy and/or System Enhancement

Below are JJCPA funded programs reported by the county.

Program Name:

Active Recidivism Reduction Initiative via Engagement

Evidence Upon Which It is Based:

The Active Recidivism Reduction Initiative via Engagement (ARRIVE) program focuses on family strength training and individualized support to wards of the court that are at risk of reincarceration. This program intends to target and provide services to juvenile probationers (i.e., ages 12 to 18) that do not meet the eligibility criteria for similar types of programs, such as the Youthful Offender Wraparound (YOW) program. Youth in the ARRIVE program are required to participate in individualized and multi-systemic team meetings to review progress on case plan goals. Research has indicated parent education along with risk, need, responsivity support to high risk youthful offenders has a significant impact on reducing long term recidivism.

Description:

The ARRIVE program is a collaborative program consisting of the Probation Department and contracted community partners that offers individualized/group support to probation youth and their families that exhibit an increase in probation violation type of behavior (e.g., drug use, truancy, criminal behavior). The primary focus of the ARRIVE program is to immediately address any deleterious behavior, stabilize the family unit, and prepare the youth and his/her family for life beyond probation supervision. Services provided include, but are not limited to, case planning, parent empowerment/resilience training, substance abuse/relapse prevention and education, coping skills, anger management, and building positive peer relationships.

Mandatory requirements for youth in the ARRIVE program include:

- Participation in bi-weekly multi-system meetings with youth partner, individual case manager, and Probation to review progress towards case plan goals.
- Attendance in weekly meetings with case manager.
- Regular reporting to probation officer for progress checks.

- Regular attendance in pro-social activities (e.g., community service projects, regular school attendance).
- Regular monitoring of youthful offenders' success utilizing incentives as included in the Probation Juvenile Incentives program approved by the Board of Supervisors.

Program Successes:

An 18-year-old male youth was referred to the ARRIVE program by his Probation Officer. He was encouraged to complete anger management classes to increase the likelihood of avoiding reoffending. During the youth's time participating in ARRIVE, he completed 10 individual counseling sessions focusing on decision-making and his anger management style. Over the course of the program, the youth identified goals in various areas of his life, potential barriers to overcome, and key individuals that could support his goals. While participating in the ARRIVE program the youth gained employment, completed his court orders, and successfully terminated probation supervision. The youth expressed gratitude for the opportunity to participate in ARRIVE.

Program Name:

Substance Use Programming

Evidence Upon Which It is Based:

Substance Use Programming includes programs tailored to both male youth and female youth. Programs are based on the Therapeutic Community model for substance use treatment programs with the addition of the Aggression Replacement Training cognitive-behavior program specific to addressing criminal recidivism. Youth in the program receive individual therapy focusing on the treatment of co-occurring disorders and cognitive-behavioral therapy. Family therapy is provided based on an assessment of needs by the clinician. Research has shown that strategies that target criminal thinking and substance use reduce the likelihood of reoffending by individuals assessed to be at high risk to recidivate.

Description:

Substance Use Programs provide intensive drug and alcohol use intervention for male and female youthful offenders who have custody commitments and a history of drug and/or alcohol use. Substance Use Programming provides gender-specific services in a custodial setting. The primary goals of the programs are to reduce the likelihood of these youthful offenders to recidivate, avoiding further delinquency and a pattern of adult crime. The program integrates a multidisciplinary intervention and education model that is based on a national substance use treatment program.

Services provided within the Substance Use Programs include:

- Comprehensive and intensive substance use assessment and treatment services, drug counseling by clinical psychologists, and alcohol and drug use services counseling by clinicians trained to treat substance use disorders.
- Integrated case assessment and planning involving unit staff, education staff and collateral resources.
- Multidisciplinary education lab that provides computerized diagnostic evaluation of reading, language arts, and math competencies.
- Occupational training and job placement services.
- Assessment of academic skills and development of an individualized plan to address skill deficits by a school counselor.
- Expanded use of the Just Beginnings parenting education curriculum.
- Mentoring and counseling support services during post-release.
- Monthly case conferences with the youth and treatment team to discuss youth's progress in the

program and transition plan for release back into the community.

- Regular monitoring of youthful offenders' success utilizing incentives as included in the Probation Juvenile Incentives program approved by the Board of Supervisors.
- Collaboration between county partners, such as HCA, Probation Department, and community partners.

Program Name:

Youth Reporting Centers

Evidence Upon Which It is Based:

The Youth Reporting Centers (YRCs) are day reporting centers that include a multidisciplinary team. The OCDE provides school instruction and HCA clinicians provide individual and group therapy for youth. The Probation Department utilizes best practices, cognitive-behavioral interventions and programming, including Effective Practices in Community Supervision (EPICS) and Decision Points to impact behavioral change in the youth. Field Deputy Probation Officers refer youth in violation of their terms and conditions of probation to the YRC in lieu of filing for formal violation. This diverts youth from formal court handling as well as provides them with programming and services that target criminogenic risk factors.

Description:

The YRCs mission and goal is to reduce the use of secure detention by providing a highly structured community-based alternative confinement program. The staff at the YRC strive to promote lawful and productive lifestyles of its students by providing proven intervention and programming.

The YRCs operate within the local community to provide the youth population with the opportunity to modify poor behavior and learn the skills needed to comply with their court orders and terms of probation. The youth attend a full academic program and participate in afternoon group counseling, individual counseling, and random drug testing with an emphasis on obtaining and maintaining sobriety. On-site job coaches assist youth in seeking, obtaining, and maintaining employment as well as vocational training access. The YRCs also provide an alternative to the traditional incarceration model. Youth receive support services during the day and return home on alternative monitoring versus confinement in a juvenile facility.

Services provided within the YRCs include:

- Mental health assessment and treatment.
- Trauma informed assessment and treatment for co-occurring disorders.

Family services and parenting education.

- Peer mentor services
- Case management
- Substance use programming and linkage to substance use treatment.
- Gang intervention counseling.
- Community service and enrichment activities.

- Transportation to and from home to the site.
- Close supervision on the site and supervision in the community.
- Regular monitoring of youthful offenders' success utilizing incentives as included in the Probation Juvenile Incentives program approved by the Board of Supervisors.
- Collaboration between county partners, such as OCDE, HCA, and Probation Department.

Program Successes:

During this last year, nine youth who participated in the YRC program earned their high school diplomas and participated in graduation ceremonies. Two of these youth were twins, and they were the first in their family to earn a high school diploma. Both youths participated in anger management classes, individual therapy, parenting, and career development. Upon completing the YRC program, both youths gained employment, enrolled in college classes, and strengthened their relationships with their parents. At the graduation, their parents thanked the YRC staff for giving their children the chance to earn their high school diploma, guidance, and tools to get a job and to be a better parent.

Program Name:

School Mobile Assessment and Response Team

Evidence Upon Which It is Based:

The School Mobile Assessment and Response Team (SMART) is an early intervention and prevention program. SMART is focused on involvement with families and youth to prevent school-based violence and delinquency. The use of a threat assessment tool assists in determining the appropriate level of intervention needed. Family support, resource referrals, and diversion have all been shown to be effective in reducing delinquent behaviors.

Description:

SMART was established to reduce crime and violence by youth on, near, or affecting school campuses in Orange County. SMART works in conjunction with Orange County Municipal Police Departments, various collaborative partners, and agencies on incidents related to violence, threats, possession and/or use of weapons, unstable behaviors and suicidal actions or tendencies. SMART members respond day or night to calls from school and community personnel reporting violence or threats of violence. Each call for service results in an assessment of the situation, a threat assessment as needed (including home searches for weapons) and referrals to law enforcement, diversion programs, or other alternative services. The goal of SMART is to prevent and/or detect the precursors to violence through education and awareness, preempting likely instances of violence through threat assessment, and responding quickly and effectively to violence on or around school campuses.

Services provided within SMART include the following:

- Conduct threat assessments at the school and/or community site.
- Refer at-risk youth to appropriate community resources for assessment and intervention services.
- Investigate criminal acts and make arrests if necessary or recommend to a diversion program.
- Maintain safety and security to the school and return staff and students to their daily routine.
- Collaboration between county partners, such as Orange County Sheriff's Department, Probation Department, District Attorney, Health Care Agency, and community partners (local school districts).

Program Success:

In December 2022, a series of threats began towards Laguna Hills High School, staff, and students after a championship football game.

These threats spanned through June 2023. Two of these threats targeted Laguna Hills High School's Senior Graduation Ceremony on Thursday, June 1.

The Orange County Sheriff's Department responded to all the threats in real-time and with the conviction of each threat being an actual and imminent emergency response. Additional security measures were utilized for the safety of the community during the graduation ceremony.

To date, there are at least 14 victims involved in these crimes.

On Saturday, June 3, the suspect was arrested in the city of San Rafael, CA and later booked into the Orange County Jail on suspicion of violating CPC 422(A) Criminal Threats, CPC 148.1(C) False Report of a Bomb, CPC 148.3(a) False Report of an Emergency, CPC 71(a)(2) Threatening a Public Officer, and CPC 653(m) Obscene/Threatening Phone Calls.

With the approaching graduation ceremony, Orange County Sheriff's Department investigators anticipated additional threats and coordinated with agencies to monitor known locations used by the suspect. They were positively identified at a location in which a threat was made.

The complex investigation involved the School Mobile Assessment and Resource Team and our Directed Enforcement Team, who tenaciously pursued numerous leads resulting in an arrest.

Program Name:

Truancy Response Program

Evidence Upon Which It is Based:

The Truancy Response Program (TRP) focuses on family education, support, and resource referrals to reduce truancy. Parent education and support programs have been shown to have a statistically significant impact on recidivism. Truancy has also been shown to be a stepping-stone to substance use and criminal behavior. By providing families with supportive services aimed at reducing truancy, criminal behavior is reduced.

Description:

TRP is a collaborative, three-tiered program designed to address chronic absenteeism in Orange County schools and reduce the number of youths involved in the juvenile justice system. TRP focuses on chronically truant youth and their families who have failed to respond to the traditional efforts at the school district level. Reducing school truancies and absences increases the chances of future success for the youth. By prioritizing youth at risk for delinquency, the TRP aims to reduce the number of youths who later commit crime resulting in a formal 602 application. TRP provides progression of interventions up to, and including, formal court action.

Services provided within TRP include three (3) tiers:

First Tier School Attendance Review Boards (SARB) and Parent Meetings:

- Mandatory attendance of truant youth and their parents at school-based group parent meetings conducted by the District Attorney.
- District Attorney attendance at SARB meetings based on availability and invitation by individual districts.
- Community Partners attend SARB based on availability and invitation by individual districts.
- Referrals for services, such as counseling, parenting skills, and basic housing and shelter needs are provided by collaborating agencies and individual districts during SARB.

Second Tier CBO informal intake and diversion:

- Referral to CBO from SARB for a TRP intake evaluation for informal handling.
- Placement in one of several "pre-court" TRP interventions monitored by CBO.
- Participation of both youth and parents in a Parent Empowerment Program workshop designed to coach parents in effective parenting and support skills for their children.
- Referrals for services, such as counseling, parenting skills, and basic housing and shelter needs are provided for truancy court families by collaborating agencies.

Third Tier Formal Filing:

- Referral by School Districts to DA for potential filing.
- Prosecution of parents and/or students, depending on age of the student. If parents plead guilty, the court can order fines. If students admit the petition, the court can order fines, community service, and/or a truancy prevention program.
- Collaboration between court partners, such as District Attorney, Juvenile Court, SSA, Public Defender, and community partners (Waymakers, Boy's and Girl's Club of Garden Grove, Orange County Department of Education, and local school districts).

Program Name:

Decentralized Intake/Sheriff's Prevention Program

Evidence Upon Which It is Based:

The Decentralized Intake (DCI) Program is modeled after diversion programs, which attempt to minimize the effects of labeling associated with offending and limit the opportunities youth have to associate with antisocial peers by reducing their contact and exposure to the juvenile justice system. Evidence-based principles of the Risk/Needs/Responsivity model support minimizing intervention by the juvenile justice system for lower risk offenders.

Description:

DCI increases the level of counseling and diversion services for at-risk youth in the unincorporated areas and cities serviced by the Sheriff's Department. DCI staff offers timely assessment and a progression of intervention services to youth and their families near their homes. The primary goal of DCI is to reduce the number of at-risk youth that progress further in the juvenile justice system through prompt assessment and linkage to appropriate services at the earliest possible point.

Services provided within DCI include:

- Expedited processing of youth arrested and referred to needed resources.
- Referral of DCI youth and their families to local resources, programs, and classes for appropriate intervention services when possible.
- Informal consultations among the on-site operations staff for purposes of making more informed decisions about certain cases.
- Collaboration between county partners, such as Sheriff's Department, Probation Department, and community partners (Pepperdine Resource, Youth Diversion and Education (PRYDE)).

Program Name:

Juvenile Recovery Court

Evidence Upon Which It is Based:

Juvenile Recovery Court (JRC) is based on a model where an interactive judicial officer leads an interdisciplinary team, including the District Attorney, Public Defender, Probation, HCA clinicians, and parents to address a youth's substance use issues. The model has been shown effective nationally. The research conducted by the Probation Department has shown reduced recidivism and substance use.

Description:

JRC is a collaborative program for youthful offenders demonstrating an escalating pattern of drug and/or alcohol use. JRC provides intensive supervision and treatment for substance use to these youth as an alternative to incarceration. There are 4 program phases, including an initial 30-day orientation period. The primary JRC goals are to increase sobriety and reduce recidivism while reducing the reliance on incarceration. Participants may remain in the program as long as they can derive a benefit from it. On successful completion of JRC, wardship may be terminated and all charges and stayed time are dismissed.

Services provided within JRC include:

- Weekly individual and group therapy sessions.
- Weekly self-help meetings.
- Weekly reporting to the probation officer for progress checks and drug testing.
- Regular attendance in school with no behavior problems reported.
- Compliance with all court-ordered terms and conditions and regularly scheduled weekly, bi-monthly, or monthly court appearances for progress reviews.
- Regular monitoring of youthful offenders' success utilizing incentives as included in the Probation Juvenile Incentives program approved by the Orange County Board of Supervisors.

Waymakers' Collaborative Court Full Service Partnership (CCFSP) program is a program funded through a contract with Health Care Agency, Mental Health and Recovery services, Children and Youth Services. CCFSP provides culturally competent in-home and community-based services for youth ages 0-25 struggling with mental illness and/or substance use issues. A multidisciplinary team wraps around a consumer through assessment, care plan implementation, case management linkage and coordination, treatment intervention to build upon skills and maintenance of wellness and recovery phases of treatment. CCFSP addresses the needs of

consumers and their families across all life domains to encourage alternative positive activities that empower, improve self-efficacy, and build social competence to promote recovery, success, safety and permanence in the home, school, workplace, and community. CCFSP is the primary provider of behavioral health services for JRC. The following services are provided to JRC youth:

- Individual therapy and family therapy in the client's home or other field-based location to reduce barriers to treatment such as transportation difficulties.
- Linkage to psychiatry and medication support
- Group therapy at Waymakers focused on topics specific to this population.
- An array of supportive services at Waymakers' facility including art therapy, music therapy, meditation room, employment support, gym equipment and fitness classes.

Program Successes:

A 20-year-old former youth started JRC in January 2023. He consistently tested positive for marijuana, failed to appear for drug testing on several occasions, tested positive for cocaine and alcohol, and was inconsistent with therapy sessions at the beginning of the program. He kept stating he did not have a drug problem and could stop any time until one day he concluded that he did have a drug problem and understood he needed to take responsibility for his own actions. The youth unexpectedly found out he was a father while in JRC through a paternity test, which also changed his mindset about his actions. The youth eventually began to test negative, consistently met with Waymakers, and obtained a job with the Carpentry Union. He was assigned several construction sites including CHOC hospital. Due to the diligence of the JRC team and the youth's engagement in the program, the youth successfully graduated from JRC in February 2024.

**Part III. Youthful Offender Block Grant (YOBG)
(Welfare & Institutions Code Section 1961(a))**

A. Strategy for Non-707(b) Offenders

Describe your county's overall strategy for dealing with non-707(b) youthful offenders who are not eligible for commitment to the Division of Juvenile Justice. Explain how this Plan relates to or supports that strategy.

The Probation Department employs various strategies to address non-707(b) offenders. Probation provides secure detention as well as community supervision, including the use of youth reporting centers, electronic monitoring for at-home pre-adjudicated youth, and the facilitation of foster care placement for youthful offenders.

In custody and within the community, supervised youth are provided a broad range of treatment and rehabilitative programs to meet individual needs. Staff are trained in Evidence Based Practices and provide supervision based on a risk/needs assessment to determine an appropriate level of intervention. Probation collaborates with various community-based organizations, faith-based organizations, and many other secular human service organizations.

B. Regional Agreements

Describe any regional agreements or arrangements to be supported with YOBG funds.

Orange County does not currently have regional agreements as part of its YOBG funded services. Being a large urban county, the needs of the youth in Orange County are significant and there is no need for a regional approach to services with other counties at this time.

YOBG Funded Program(s), Placement, Service, Strategy and/or System Enhancement

Below are YOBG funded programs reported by the county.

Program Name:

Pre-Detention and Pre-Disposition Program

Evidence Upon Which It is Based:

N/A

Description:

The Pre-Detention and Pre-Disposition Program provides a continuum of strategies to reduce the use of incarceration while providing for electronic monitoring and supervision of youth at home while awaiting adjudication of their cases. Using a validated risk assessment instrument to determine which youth can be safely released home under this program protects the community and allows secure detention beds to be used only for high-risk offenders. All participants in the program are supervised utilizing electronic monitoring equipment. This allows pre-adjudicated wards to be served in a community-based setting rather than being detained with youth assessed to be high-risk offenders. Youth are held accountable to the rules of the program and expected to attend school according to their school's schedule as well as comply with all counseling orders from the court.

Services provided within the Pre-Detention and Pre-Disposition Program include:

- Supporting youth in the community and in their homes.
- Face-to-face contact between officers and youth assigned to their caseloads.
- Risk assessment tools used to screen youth for eligibility in the program.
- Effective Practices in Community Supervisions (EPICS).
- Electronic Monitoring, which includes 24/7 GPS and radio frequency monitoring for select youthful offenders as a deterrent and enhancement tool in community supervision.
- Regular monitoring of youthful offenders' success utilizing incentives as included in the Probation Juvenile Incentives program approved by the Board of Supervisors.

Program Successes:

A youth was released to the Pre-Detention and Pre-Disposition Program (PPP) in January 2024 pending a new law violation. He is a 602 ward of the court and had a history of non-compliance with the terms and conditions of his probation prior to being ordered released on PPP. The youth also struggled with alcohol abuse and had an extensive history of being truant from school. While on PPP, all drug tests returned negative for any substance abuse, he attended AA meetings three times each week as ordered by the Court, and he attended school daily with no noted concerns. The youth was commended by school officials regarding his improvement in school regarding attendance and completion of school assignments while on house arrest. Although the youth initially struggled with his inability to access electronic devices while on house arrest, after further counseling and redirection, he gained compliance. The youth terminated from PPP in February 2024.

Program Name:

Juvenile Facilities Programming

Evidence Upon Which It is Based:

N/A

Description:

Juvenile Facilities Programming provides institutional and camp programming at the Juvenile Hall facility and Camp facilities. Each facility provides similar evidence-based cognitive-behavioral treatment programs. Youth participate in a tiered phase level system of various programs. Programs provide continuum of response for the in-custody treatment of youth. Camps target youth based on age, gender, criminogenic risk factors and/or commitment length. Specific programs within the facilities target youth who require a higher level of need for transition and reentry services. Programs include, but are not limited to, sex offender therapy and counseling, pre-camp readiness, gang intervention, Progressive Rehabilitation in a Dynamic Environment (PRIDE), and Leadership Education through Active Development (LEAD).

Services provided within Juvenile Facilities Programming include:

- Cognitive behavioral treatment programs to assist in-custody youth with their rehabilitation.
- Aggression Replacement Training.
- Decision Points and Effective Practices in Community Supervision (EPICS).
- Just Beginnings parenting program and baby visits sponsored by the Youth Law Center (available to all eligible youth).
- Individual and group counseling.
- Therapy provided by a licensed clinician.
- Drug/Alcohol & Mental Health counseling.
- Educational & Vocation services to address each youth's social and behavioral needs.
- Assistance for college enrollment, employment, and family reunification.
- Other evidence-based programming.
- Regular monitoring of youthful offenders' success, including incentives as included in Probation Juvenile Incentives program as approved by the Board of Supervisors.
- Collaboration between county partners, such as HCA, Probation Department, community partners (Department of Education, Project Kinship, Waymakers, Santiago Canyon College), and the Orange County Bar Foundation.

Program Successes:

The Probation Department Facilities initiated the associate degree for Transfer (ADT) Program approximately a year ago. One of the youth who participated in the program is on track to graduate with an AA degree this June. Despite facing significant life challenges, this resilient youth has chosen education as a positive path to transform their life and contribute to the community. The ADT program serves as a crucial stepping stone toward the youth's ultimate goal of pursuing advanced degrees. Additionally, the youth has already been accepted to Long Beach State College and plans to start in the Fall. The dedicated Probation staff has played a pivotal role in supporting this youth's journey, connecting them with collaborative resources, and providing counseling when needed.

Program Name:

Community Supervision

Evidence Upon Which It is Based:

N/A

Description:

Formal supervision provides reentry and post-release community supervision for youth who have committed high-risk offenses that may have resulted in commitments to the Division of Juvenile Justice (DJJ) of California prior to realignment. Designated probation officers work with youth representing the highest risk and needs. The primary goal is to provide reentry services and effective supervision prior to and/or following release from a juvenile facility.

The youth served are supervised on probation caseloads and are wards of the court. The youth receive risk and need assessments, which are used to assess level of supervision. Probation officers are trained in the use of Evidence-Based Practices.

Services provided within Community Supervision include:

- Thinking for a Change (T4C), EPICS, and Decision Points, which assist youth in successful reentry into the community.
- Progress checks and random drug testing.
- Electronic Monitoring, which includes 24/7 GPS and radio frequency monitoring for select youthful offenders as a deterrent and enhancement tool in community supervision.
- Reentry/Aftercare Services, which includes field supervision of wards who are released into the community by conducting random home calls, resource referrals and case management services to youth and their families.
- Regular monitoring of youthful offenders' success utilizing incentives as included in the Probation Juvenile Incentives program approved by the Board of Supervisors.
