PART I: GRANT INFORMATION

Background Information

The State Budget Act of 2022 (Senate Bill 154, Chapter 43, Statutes of 2022) established the Missing and Murdered Indigenous People Grant Program. Funding is available to federally recognized Indian tribes in California to support efforts to identify, collect case-level data, publicize, investigate and solve cases involving missing and murdered indigenous people. Grants should focus on activities including, but not limited to, developing culturally based prevention strategies, strengthening responses to human trafficking, and improving cooperation and communication on jurisdictional issues between state, local, federal, and tribal law enforcement.

Contact Information

This Request for Proposal (RFP) Instruction Packet provides the necessary information to prepare a proposal to the Board of State and Community Corrections (BSCC) for the Missing and Murdered Indigenous People Grant Program.

This is a competitive grant process, therefore BSCC staff cannot assist the applicant or its partners with the preparation of the proposal. Any questions concerning this RFP, the proposal process, or the submission process must be submitted by email to: mmip@bscc.ca.gov.

BSCC will create a Frequently Asked Questions page and update it periodically up to the proposal submission deadline. See the [BSCC website](#) for more information.

Proposal Due Date and Submission Instructions

Missing and Murdered Indigenous People Grant Program (MMIP) proposals must be received by **5:00 P.M. (PST) on Friday, April 18, 2025**.

BSCC uses special application software called “Submittable” for its competitive grant process. Applications for the MMIP Grant Program must be submitted through the **BSCC Submittable Application Portal**. A link to the BSCC Submittable Application Portal, MMIP Grant Program Application, and all required attachments are available on the [BSCC website](#).

To apply for this funding opportunity, applicants must create a free Submittable account or use an existing Submittable account when prompted. After an account is established, applicants may proceed with the submission process. As part of this process, applicants will be required to upload mandatory attachments. Applicants will complete these attachments ahead of time and then upload them to the BSCC Submittable Application Portal. All mandatory attachments are listed at the end of this document and available on the [BSCC website](#).

Please be advised that completing the application and uploading the required documents into the Submittable Application Portal can take a significant amount of time. It is extremely important that applicants begin the submission process early. Applicants that wait until the due date to complete the submission process often run out of time. Applicants are strongly advised to submit proposals well in advance of the due date and time to avoid disqualification.

The BSCC Submittable Application Portal will not accept submissions once the submission deadline has passed. If the BSCC does not receive a submission by 5:00 p.m. (PST) on April 18, 2025, the proposal **will not be considered for funding.**

Once you have successfully submitted your application and all required attachments, you will receive an email acknowledging your application has been received.

Having Tech Issues?

If you experience technical difficulties with submitting your application through the Submittable Application Portal, you should submit a Help Ticket through Submittable, as BSCC does not control that site. Please also email the BSCC at: mmip@bscc.ca.gov or call the BSCC main line at (916) 445-5073 and ask to speak to someone about the MMIP Grant. Be advised that applicants contacting Submittable and/or the BSCC on the due date may not receive timely responses. Please allow sufficient time for Submittable and BSCC to provide technical assistance.

Need More Information About the Grant?

To learn more about the grant or ask technical questions, prospective applicants are invited to attend a **Grant Information Session**. The purpose of these Information Sessions is to provide clarification on application instructions and answer technical questions from prospective applicants. At these sessions, BSCC staff will review application submission instructions, applicant eligibility, funding information, eligible grant activities and the rating process. After a brief presentation, prospective applicants will be able to ask questions. Attendance at these sessions is not a requirement of applying for the grant and it is not necessary to attend both sessions. Details are listed below:

Are you Planning to Apply?

Prospective applicants are asked, but not required, to submit a non-binding letter indicating their intent to apply. These letters help the BSCC plan for the proposal evaluation process. Please submit your letter in Microsoft Word or as a PDF.

There is no formal template for the letter, but it should include the following information:

1. Name of the federally recognized tribe;
2. Name and title of a contact person; and
3. A brief statement indicating the applicant's intent to submit a proposal.

Failure to submit a Letter of Intent is not grounds for disqualification. Prospective applicants that submit a Letter of Intent and decide later not to apply will not be penalized. Please email your non-binding Letter of Intent to Apply by **Friday, February 21, 2025**. Please identify the email subject line as **MMIP Grant Letter of Intent** and submit the letter to mmip@bscc.ca.gov.

Development of the MMIP Grant: Executive Steering Committee

To ensure successful program design and implementation, the BSCC uses an Executive Steering Committee (ESC) process to inform decision making. An ESC is composed of subject matter experts, community partners, and interested parties representing both the public and private sectors. The BSCC makes every attempt to include diverse representation on its ESCs in breadth of experience, geography and demographics.

ESCs are convened by the BSCC Board to carry out specified tasks, including the development of BSCC's grant programs. In addition to developing the RFP, members of the ESC also read and rate the proposals submitted by prospective grantees. Once the proposal evaluation process is complete, ESCs submit grant award recommendations to the BSCC Board and the Board then approves, rejects, or revises those recommendations. Members of the ESCs are not paid for their time but are reimbursed for travel expenses incurred to attend meetings.

The ESC for the MMIP Grant Program includes representation from native organizations, community-based organizations, legal services, and state and local law enforcement agencies. A list of ESC members can be found in **Appendix A**.

Conflicts of Interest

Existing law prohibits any grantee, subgrantee, partner, or like party participating on the ESC from receiving funds from the grants awarded under this RFP. Applicants who are awarded grants under this RFP are responsible for reviewing the ESC membership roster and ensuring that no grant dollars are passed through to any entity represented by any member of the ESC.

Eligibility to Apply

Eligible applicants are federally recognized Indian tribes in California. The current list, as published by the U.S. Department of Interior, Bureau of Indian Affairs, is attached as **Appendix B**.

Eligible tribes may apply individually and/or as part of a collaborative proposal, as described here:

- **Individual Proposals**

For an individual proposal, a single eligible tribe is the applicant and responsible for the fiscal and program management of the grant. The applicant may still subcontract with outside entities for grant services. See corresponding funding information below.

- **Collaborative Proposals**

Partnerships among tribes are allowed and encouraged. For a collaborative proposal, two or more tribes partner together and share the grant award. For a collaborative proposal, one tribe must be designated as the Lead Tribal Applicant and will be responsible for the fiscal and program management of the grant. See corresponding funding information below.

Tribes Already Receiving an MMIP Grant

Tribes that were awarded Cohort 1 and 2 MMIP grants may submit an individual proposal for new or expanded activities and/or apply as part of a collaborative proposal. Tribes that were already awarded funds will only be considered for an individual award if there are funds remaining after all new eligible applicants have been funded.

Funding Information

This RFP makes \$12,933,395¹ available competitively to federally recognized Indian tribes in California.

Funding Categories

Recognizing that Indian tribes have different capacities, resources, and needs, there are three funding categories within which applicants will compete:

1. Individual Tribe – Small Scope (up to \$500,000)
2. Individual Tribe – Large Scope (up to \$1,000,000)
3. Two Or More Tribes – Collaborative (up to \$2,000,000)

An individual applicant will choose to apply in either the Small Scope category or Large Scope category (but not both), depending on the size and scope of the project and the amount of funding needed to implement the project. Individual applicants in the Small Scope category may apply for up to **\$500,000**. Individual applicants in the Large Scope category may apply for up to **\$1,000,000**. The purpose of the two funding categories is to allow small projects to compete against other small projects and large projects to compete against other large projects.

Tribes that apply as part of a Collaborative Proposal will compete in a third category against other Collaborative Proposals. Applicants in this category may apply for up to **\$2,000,000**.

An eligible tribe may submit an individual proposal and be included on a Collaborative Proposal.

Please note that all applicants may apply for any dollar amount up to and including the maximum grant amount identified in each category and are strongly encouraged to apply for only the amount of funding needed to implement the project. Proposals will be scored, in part, on the reasonableness of the proposed budget.

An illustration of the funding categories, maximum grant awards, and total available funding by category is provided below:

¹ Provided funding is appropriated in the Budget Act of 2024 (Senate Bill 108, Chapter 35, Statutes of 2022) and the Budget Act of 2023 (Senate Bill 101, Chapter 12, Statutes of 2023), which was amended by Senate Bill 104 (Chapter 189, Statutes of 2023).

Funding Categories	Maximum Grant Award	Total Available Funding
Small Scope	Up to \$500,000	\$4,933,395
Large Scope	Up to \$1,000,000	\$4,000,000
Collaborative Proposal	Up to \$2,000,000	\$4,000,000
Total Funding Available for Competitive Grants:		\$12,933,395

Reimbursement-Based Grant

Please be advised that the MMIP Grant is a reimbursement-based grant. This means that grantees are reimbursed in arrears for grant-related expenditures. Grantees will choose to invoice BSCC on either a monthly or quarterly basis. There will be no advance payments. Therefore, applicants should have sufficient capital to support the first 2-3 months of grant expenditures (for monthly invoicing) or the first 3-6 months of grant expenditures (for quarterly invoicing).

Funding Decisions

As explained above, applicants will compete for funds within either the Small Scope, Large Scope or Collaborative Proposal Category. Proposals will be scored and ranked within each category, and a ranked list of all scored proposals will be generated. The BSCC will move down the ranked lists to fund all qualified applicants who meet the Minimum Scoring Threshold (see page 18), in each of the three funding categories until all funds in that category are exhausted. Applicants that fall at the cut-off point may be offered a partial award if there are not sufficient remaining funds to make a full award.

If funding remains in one or more categories, the following will occur:

- Funds remaining in the Small Scope category after all qualified applicants in that category have been fully funded, will be used to fund any additional qualified applicants in the Large Scope category first, and then the Collaborative Proposal category.
- Funds remaining in the Large Scope category after all qualified applicants in that category have been fully funded, will be used to fund any additional qualified applicants in the Small Scope category first, and then the Collaborative Proposal category.
- Funds remaining in the Collaborative Proposal category after all qualified applicants in that category have been fully funded, will be used to fund any additional qualified applicants in the Large Scope category first, and then the Small Scope category.

If an applicant or grantee relinquishes an award, BSCC has authority to offer that award to the next qualifying applicant(s) on the ranked list.

Eligible Grant Activities

The Missing and Murdered Indigenous People Grant Program was established in Senate Bill 154 (Senate Bill 154, Chapter 43, Statutes of 2022). The Budget Act of 2023 (Senate Bill 101, Chapter 12, Statutes of 2023) augmented the annual appropriation and then Senate Bill 104 (Chapter 189, Statutes of 2023) added language regarding eligible expenditures (in bold below). The Budget Act of 2024 (Senate Bill 108, Chapter 35, Statutes 2024) augmented the annual appropriation (**Appendix C**).

Funds shall be awarded by the Board of State and Community Corrections as competitive grants to federally recognized Indian tribes in California to support efforts to identify, collect case-level data, publicize, and investigate and solve cases involving missing and murdered indigenous people. The board shall consult with and include stakeholders from the indigenous community to inform the grant outreach process and the process to select and administer grants.

Grants should focus on activities including, but not limited to, developing culturally based prevention strategies, strengthening responses to human trafficking, and improving cooperation and communication on jurisdictional issues between state, local, federal, and tribal law enforcement in order to investigate and solve cases involving missing and murdered indigenous people. **Allowable expenditures may include reimbursement to eligible tribes for contracted services with local law enforcement agencies for staffing in support of eligible grant activities.**

Within these parameters, tribal applicants have discretion in how to use these grant funds. Tribal applicants are encouraged to develop proposals that best fit the needs of their communities. Grant funds can be used for activities such as:

- Culturally based outreach and awareness campaigns
- Mental health services
- Substance use disorder treatment
- Reunification of indigenous foster youth or runaways with their families
- Community healing activities
- Activities to prevent human trafficking
- Services for the families of missing or murdered indigenous people
- Promoting coordination between tribal police and their non-tribal counterparts
- Legal clinics that offer training on the development of formal agreements between tribes and state and local governments
- Funding partnerships with local law enforcement agencies

In support of these efforts, each applicant will develop a Project Work Plan that identifies measurable project goals, objectives, and commensurate timelines (**Appendix D**).

Additional information on these terms (i.e., goals and objectives) and other definitions referenced in this RFP are available in the Glossary of Terms (**Appendix F**).

Applicants may either implement new activities, strategies, or programs and/or expand existing activities, strategies, or programs (without supplanting funds - see definition for “Supplanting” in the General Grant Requirements).

With input from California’s tribal community, the ESC developed the following list of strategies that could be implemented with grant funds. This list is not exhaustive but provided here to foster discussion and assist in planning among prospective applicants and their communities.

Sample Strategy: Culturally Based Prevention Strategies

Culturally based prevention strategies are vast, varied, and have different meanings to the impacted tribal communities. For the purposes of this grant, eligible activities, strategies, or programs could include:

- Missing and murdered indigenous people outreach and awareness campaigns.
- Mental health services to prevent or address the impact of missing and murdered indigenous people.
- Substance use disorder treatment to prevent or address the impact of missing and murdered indigenous people.

Sample Strategy: Strengthening Responses to Human Trafficking

Human trafficking is a crime involving the exploitation of a person for labor, services, or commercial sex. For the purposes of this grant, eligible activities, strategies, or programs could include:

- Support services for the victims and families dealing with the loss of a missing and murdered indigenous person (e.g., counseling, safe houses, temporary housing).

Sample Strategy: Improving Cooperation and Communication on Jurisdictional Issues

Improved cooperation and communication between Indian tribes and state and local governments may aid in the identification and investigation of cases involving missing and murdered indigenous people. For the purposes of this grant, eligible activities, strategies, or programs could include:

- Education programs on Public Law 83-280 and the rights of Indian tribes.
- Programs that promote collaboration between tribal police, tribal courts, and their non-tribal counterparts on cases involving missing and murdered indigenous people.
- Programs that promote cross deputization (e.g., tribal police are commissioned as deputy sheriffs, state police, or municipal officers and non-tribal law enforcement officers are commissioned as tribal police).
- Programs that support coordination with local law enforcement and Indian tribes in high crime areas.
- Legal clinics that offer training on the development of MOUs and formal agreements between Indian tribes and state and local governments.

Examples of items that may be purchased using grant funds (Note: this list is not exhaustive, but provided here to assist with planning):

- Alert Notifications Systems (Amber Alerts, Feather Alerts)
- Billboard, Online, and Print Advertising
- Burial Costs / Costs Connected to the Transfer of Human Remains

Match Requirement

No match is required for the Missing and Murdered Indigenous People Grant Program.

Data Collection, Reporting and Evaluation Requirements

Projects selected for funding will be required to submit Quarterly Progress Reports (QPRs) to the BSCC and complete an evaluation of their grant-funded project that focuses on the achievement of the project's goals and objectives. Completion of the evaluation requires the submission of a Local Evaluation Plan (LEP) and Evaluation Report (LER). A summary of the QPRs, LEP, and LER follows. More detailed information and evaluation-related resources will be made available to grantees.

The BSCC will also be conducting a statewide evaluation of the impact of the initiatives supported by the grant funding including the outcomes and objectives that were achieved. The focus of the statewide evaluation is to report on the impact of the grant funds across all, and subgroups, of the grant-funded projects. This contrasts with grantees' evaluation of their grant-funded projects which focus on their project's specific goals and objectives. The primary data collection instrument for the BSCC's statewide evaluation will be the QPR and information gathered from grantees through their LEPs, LERs, and interviews.

Quarterly Progress Reports

Grant recipients are required to submit QPRs to the BSCC. The QPRs are a critical element in BSCC's monitoring and oversight process and the primary data collection tool for the BSCC's statewide evaluation.

A brief outline of the types of information and data grantees will be required to report through the QPRs follows. Once grants are awarded, BSCC staff will update the design of the QPR to ensure the data collected reflects the projects that were funded. Grantees will have an opportunity to provide feedback before the QPR is finalized. Applicable forms and instructions will be available to grantees on BSCC's website after the Grantee Orientation.

Types of data and information gathered through the QPRs:

- Grantee progress in implementing common project implementation activities (i.e., partnerships, staffing, training, enrollment process, programming, data collection/evaluation and quality assurance).
- Grantee progress in achieving their project's goals and objectives.
- Aggregate data for project participants including:
 - Demographic information for age, gender identity, race or ethnicity, risk level, education, employment status, and housing status.
 - Services received during the reporting period by specific service categories (e.g., case management, mentoring, community engagement/outreach).
 - Outcomes achieved (e.g., improved cultural awareness/identity, improved resilience, other positive outcomes). Grantees will report on outcomes appropriate for their project and participants.
- Project-level qualitative (narrative) information related to investigations of new and pre-existing missing or murdered indigenous people cases, database or case management systems, outreach and awareness, etc., and project highlights or success stories.

Local Evaluation Plan

The purpose of the LEP is to ensure that the grantee has a plan in place at the beginning of the project to collect the data and information necessary to, at the conclusion of the grant period, report on the extent to which the project's goals and objectives, as included in the proposal, were achieved. The LEP is expected to include a detailed description of the data and information that will be collected for each goal and its associated objectives and detailed descriptions of the data management, analysis and reporting plans. The plan should be developed before the project starts or during project implementation before services or activities begin. Generally, modifications to the plan may occur during the grant period to address challenges or lessons learned. Appendix E provides the guidelines for the LEP. The LEP is due no later than **April 30, 2026**.

Local Evaluation Report

The purpose of the Local Evaluation Report (LER) is to document the extent to which the project achieved its goals and objectives. Implementation of the Local Evaluation Plan

should ensure the grantee has the data and information necessary to do so. Appendix E provides the guidelines for the LER. The LER is due no later than **January 31, 2029**.

Recommendation for Evaluation Efforts

To ensure that grantees can comply with the BSCC's data collection and reporting requirements in a meaningful way that benefits the applicants, their communities, and the State of California, it is highly recommended that grantees budget at least 5 percent of the total grant award for data collection and evaluation efforts. These efforts include the resources necessary to complete the QPRs; develop and write the LEP, implement the LEP; and analyze data and write the required LER.

Applicants are also encouraged to use outside evaluators to ensure objective and impartial evaluations. Specifically, applicants are encouraged to partner with institutions of higher learning universities, state universities, community colleges, and other research entities.

In addition, applicants are strongly encouraged to identify research partners early on and include them in the development of the proposal, so that the goals and objectives listed in the Project Work Plan are measurable.

Additional Grant Requirements

Key Partner Commitments

For the purposes of this RFP, "Key Partner" means an indispensable agency or entity, named in the proposal, that the grantee does not have direct control over and that will provide essential services for the grant project. If the success of the grant project depends upon the cooperation of an outside agency or entity, that agency or entity is a key partner. Examples could include:

- The grantee will provide funding to a law enforcement agency or nonprofit (already identified) for specified services.
- The grantee will depend upon referrals from a local probation department or state parole in order to meet target population eligibility requirements.
- The grantee will need a data sharing agreement with a local law enforcement agency in order to meet grant reporting requirements.
- The grantee will require access to a local detention facility under the control of a local department.
- The grantee will rely on staff dedicated via a contractual relationship with the local department of behavioral health services.

For each Key Partner, the grantee must submit a signed **Key Partner Commitment Form (see Attachment G)** from the outside entity or agency named. The form must identify the outside agency or entity, include a description of the services to be provided, and be signed and dated by an authorized individual representing the agency or organization. Submit one form per partner agency or entity.

The applicant is not required to submit a Key Partner Commitment Form if the applicant has determined that an outside agency or entity is not critical to the launch or ongoing implementation of the proposed program. “Key partners” do not include vendors that provide contracted goods, services or products.

Criteria for Non-Governmental Organizations

Applicants for the Missing and Murdered Indigenous People Grant Program may elect to partner, contract, or establish agreements with non-governmental organizations (NGOs)². in the implementation of their program.

All applicants must complete, sign, and submit the BSCC *Grantee Assurance for Non-Governmental Organizations (Appendix H)*, even if there are no plans to subcontract at the time of submission, or if the name of the subcontract party is unknown. A signature on this form provides an assurance to BSCC that the signing authority has read and acknowledged these terms, should the applicant choose to enter into an agreement with an NGO at a later date.

Once under contract, grantees must submit an updated *Grantee Assurance for Non-Governmental Organizations* throughout the life of the grant agreement for any additional NGOs that receive funds through subcontracts after awards are made. The BSCC will not reimburse for costs incurred by NGOs that do not meet the BSCC’s requirements. All NGOs must adhere to the terms described in the table below:

² For the purposes of this RFP, NGOs include nonprofit and for-profit community-based organizations, faith-based organizations, evaluators (except government institutions such as universities), grant management companies, and any other non-governmental agency or individual.

Eligibility Criteria for Non-Governmental Organizations Providing Services with BSCC Grant Funds

Any non-governmental organization that receives Missing and Murdered Indigenous People Grant funds (as either a subgrantee or subcontractor) must:

- Have been duly organized, in existence, and in good standing for at least six (6) months prior to the effective date of its fiscal agreement with the BSCC or with the Missing and Murdered Indigenous People grantee;
 - Non-governmental entities that have recently reorganized or have merged with other qualified non-governmental entities that were in existence prior to the six (6) month date are also eligible, provided all necessary agreements have been executed and filed with the California Secretary of State prior to the start date of the grant agreement with the BSCC or the start date of the grantee subcontractor fiscal agreement;
- Be registered with the California Secretary of State's Office, if applicable;
- Be registered with the Attorney General's Office Register of Charitable Trust, if applicable;
- Have a valid Employer Identification Number (EIN) or Taxpayer ID (if sole proprietorship);
- Have a valid business license, if applicable;
- Have no outstanding civil judgments or liens;
- Have any other state or local licenses or certifications necessary to provide the services requested (e.g., facility licensing by the Department of Health Care Services), if applicable.

Organizational Capacity and Coordination

Applicants will be rated, in part, on how well they demonstrate they have the experience, staffing, and any partnerships necessary to implement the proposed strategy. If an applicant is unable to identify staff and/or subcontractors until after the grant is awarded, the applicant should explain, at a minimum, the process and criteria by which they will select staff and/or subcontractors after award.

Distinct from administrative staff and partners, applicants must also demonstrate how they plan to ensure that the staff who deliver the services or work with the target population in the field have backgrounds and experience that are culturally relevant to the proposed strategy and/or target population.

BSCC Audit Requirements

Grantees are required to provide the BSCC with a program-specific compliance audit that covers the three-year service delivery period of the grant (August 1, 2025 to October 31, 2028). The audit report will be due no later than **January 31, 2029**. The program-specific compliance audit shall be performed by a Certified Public Accountant or a participating county or city auditor that is organizationally independent from the participating county or city's project financial management functions. Expenses for the final program-specific compliance audit may be reimbursed with grant funds for actual costs up to \$25,000.

In addition, the BSCC reserves the right to call for a program, compliance or financial audit at any time between the execution of the grant agreement and three (3) years following the end of the grant period. The Department of General Services, the California State Auditor, the Department of Finance, or their designated representative shall have the right to review and to copy any records and supporting documentation pertaining to the performance of this grant.

BSCC Grant Agreement

Applicants approved for funding by the BSCC Board are required to enter into a Grant Agreement with the BSCC. Grantees must agree to comply with all terms and conditions of the Grant Agreement. A sample Grant Agreement for the Missing and Murdered Indigenous People Grant Program is available on the [BSCC website](#).

The Grant Agreement start date is expected to be **August 1, 2025**. Grant Agreements are considered fully executed only after they are signed by both the grantee and the BSCC and the BSCC is in receipt of all required attachments including documentation of signing authority. Work, services, and encumbrances cannot begin prior to the Grant Agreement start date. Any work, services and encumbrances that occur after the start date but prior to Grant Agreement execution may not be reimbursed. Grantees and all subgrantees are responsible for maintaining their Grant Agreement, all invoices, records, and relevant documentation for the life of the grant cycle plus three (3) years after the final payment under the contract.

Debarment, Fraud, Theft or Embezzlement

It is the policy of the BSCC to protect grant funds from unreasonable risks of fraudulent, criminal, or other improper use. As such, the Board will not enter into contracts or provide reimbursement to applicants that have been:

1. Debarred by any federal, state, or local government entities during the period of debarment; or
2. Convicted of fraud, theft, or embezzlement of federal, state, or local government grant funds for a period of three years following conviction.

Furthermore, the BSCC requires grant recipients to provide an assurance that there has been no applicable debarment, disqualification, suspension, or removal from a federal, state, or local grant program on the part of the grantee at the time of application and that the grantee will immediately notify the BSCC should such debarment or conviction occur during the term of the Grant contract.

BSCC also requires that all grant recipients include, as a condition of award to a subgrantee or subcontractor, a requirement that the subgrantee or subcontractor will provide the same assurances to the grant recipient. If a grant recipient wishes to consider a subgrantee or subcontractor that has been debarred or convicted, the grant recipient must submit a written request for exception to the BSCC along with supporting documentation. All applicants must complete an assurance certifying they are compliant with the BSCC's policies on debarment, fraud, theft, and embezzlement (**Appendix I**).

Governing Board or Tribal Council Resolution

Successful applicants will be required to submit a Resolution from their Governing Board or Tribal Council before the grant award can be finalized and funds awarded. A signed resolution is not required at the time of proposal submission, but applicants are advised that no financial invoices will be processed for reimbursement until the Governing Board or Tribal Council Resolution has been received by the BSCC. A sample Governing Board Resolution can be found in **Appendix J**.

Grantee Orientation

Following the start of the grant period, BSCC staff will conduct a Virtual Grantee Orientation (September 2025, date to be determined). The purpose of this mandatory session is to review the program requirements, invoicing and budget modification processes, data collection and reporting requirements, as well as other grant management and monitoring activities. Typically, the Project Director, Financial Officer, and Day-to-Day Contact must attend. Grantees are also strongly encouraged to include the individual tasked with Data Collection and Evaluation. Award recipients will be provided with additional details regarding the Grantee Orientation.

Invoicing

Disbursement of grant funds occurs on a **reimbursement basis** for costs incurred during a reporting period (either monthly or quarterly). The State Controller's Office (SCO) will issue the warrant (check) to the individual designated on the Applicant Information Form as the Financial Officer for the grant. Grantees must submit invoices to the BSCC on either a monthly or quarterly basis through an online process no later than 45 days following the end of the invoicing period. Grantees will make their choice between monthly or quarterly invoicing prior to grant agreement execution.

Grantees must maintain adequate supporting documentation for all costs claimed on invoices. BSCC staff will conduct a desk review, which requires grantees to submit electronic documentation to support all grant funds claimed during the invoicing period. In addition, BSCC staff may conduct on-site monitoring visits that include a review of documentation maintained as substantiation for project expenditures with grant funds. Additional information about invoicing can be found in the [BSCC Grant Administration Guide](#).

Program Monitoring / Site Visits

The BSCC staff will monitor each project to assess whether the project is in compliance with grant requirements and making progress toward grant objectives. As needed, monitoring visits may also occur to provide technical assistance on fiscal, programmatic, evaluative, and administrative requirements. For your reference, a Comprehensive Monitoring Visit checklist can be found on the Corrections Planning and Grants Program [website](#).

Supplanting

Supplanting is the deliberate reduction in the amount of federal, state, or local funds being appropriated to an existing program or activity because grant funds have been awarded

for the same purposes. Supplanting is strictly prohibited for all BSCC grants. Missing and Murdered Indigenous People Grant Program funds shall be used to support new program activities or to augment or expand existing program activities but shall not be used to replace existing funds. It is the responsibility of the grantee to ensure that supplanting does not occur. The grantee must keep clear and detailed financial records to show that grant funds are used only for allowable costs and activities.

Travel

Travel is usually warranted when personal contact by project staff is the most appropriate method of conducting project-related business. Travel to and from training conferences may also be allowed. The most economical method of transportation, in terms of direct expenses to the project and the employee's time away from the project, must be used. Projects are required to include sufficient per diem and travel allocations for project related personnel, as outlined in the Grant Award, to attend any mandated BSCC training conferences or workshops outlined in the terms of the program.

- **Indian Tribes and Non-Governmental Organizations (NGOs)**

Grantees and NGOs must use the California State travel and per diem policy, unless the Grantee's written travel policy is more restrictive than the State's, in which case it must be used. Reimbursement is allowed for the cost of commercial carrier fares, parking, bridge, and road tolls, as well as necessary taxi, bus, and streetcar fares.

- **Out-of-State Travel**

Out-of-state travel is restricted and only allowed in exceptional situations. Grantees must receive written BSCC approval prior to incurring expenses for out-of-state travel. Even if previously authorized in the Grant Award, Grantees must submit to the BSCC a separate formal request (on Grantee letterhead) for approval. Out-of-state travel requests must include a detailed justification and budget information.

Overview of the RFP Process

Confirmation of Receipt of Proposal

Upon submission of a proposal, applicants will receive a confirmation email from the BSCC stating that the proposal has been received.

Disqualification

Please see the table below for problems that will result in disqualification.

Disqualification - PLEASE REVIEW CAREFULLY

The following will result in an automatic disqualification:

- Submission is not received in the Submittable Application by **5:00 P.M. (PST) on April 18, 2025**.
- Applicant is not a federally recognized Indian tribe.
- Application, and all required attachments, are not submitted through the BSCC-Submittable Application Portal.
- Budget Attachment is missing.
- Funding request exceeds the allowable amount in the Small Scope, Large Scope or Collaborative Proposal categories.
- Attachment(s) are illegible.
- Attachment(s) will not open or the file(s) are corrupted.

NOTE: Disqualification means that the proposal will not move forward to the Executive Steering Committee for the Proposal Rating Process, and, therefore, will NOT be considered for funding.

Proposal Rating Process

Unless disqualified, proposals will advance to the ESC for funding consideration. Proposals will be evaluated in accordance with the BSCC's *Grant Proposal Evaluation Process* ([link](#)) and as described below. The ESC will read and assign ratings to each proposal in accordance with the prescribed rating factors listed in the table below. ESC members will base their ratings on how well an applicant addresses the criteria listed under each rating factor within the Proposal Narrative and Budget Sections. ESC ratings, once submitted to the BSCC, will be final.

At the conclusion of this process, applicants will be notified of the Board's funding recommendations. It is anticipated that the Board will act on the recommendations at its meeting on July 10, 2025. Applicants and their partners are not to contact members of the ESC or the BSCC Board to discuss proposals.

Rating Factors

The five (5) *Rating Factors* that will be used and the maximum points assigned to each factor are shown in the table below. Applicants are asked to address each of these factors as a part of their proposal. The MMIP ESC assigned a percent value to each of the five (5) *Rating Factors*, correlating to its importance within the overall project (see *Percent of Total Value* column).

	Rating Factors	Point Range	Percent of Total Value	Weighted Rating Factor Score
1	Project Need	0-5	15%	30
2	Project Description	0-5	45%	90
3	Project Organizational Capacity and Coordination	0-5	10%	20
4	Project Data Collection and Evaluation	0-5	15%	30
5	Project Budget	0-5	15%	30
Maximum Proposal Score:			100%	200

Scoring Panel members will rate an applicant’s response to each Rating Factor on a scale from 0 to 5, according to the Six-Point Rating Scale below. For each Rating Factor, the rating value received is then weighted according to the “Percent of Total Value” column (determined by the ESC) associated with the Rating Factor to arrive at the final Weighted Rating Factor Score. The Weighted Rating Factor Scores are then added together for a final overall proposal score. The maximum possible proposal score is 200.

Minimum Scoring Threshold

To be considered for funding, a proposal must meet a threshold of **20 percent (20%)**, or a minimum proposal score of **40** total points.

In the event two proposals have identical proposal scores, the tie will be resolved by evaluating the individual Rating Factor scores of the two proposals, starting with the highest weighted Rating Factor (in this case, the Project Description score). If an identical score occurs on this Rating Factor, Rating Factor Scores will be used in the following order based on the descending weight valued until the tie is broken Project Need, Project Budget, Project Data Collection and Evaluation, and Project Organizational Capacity and Coordination.

Six Point Rating Scale

Not Responsive 0	Poor 1	Fair 2	Satisfactory 3	Good 4	Excellent 5
The response fails to address the criteria.	The response addresses the criteria in a very inadequate way.	The response addresses the criteria in a non-specific or unsatisfactory way.	The response addresses the criteria in an adequate way.	The response addresses the criteria in a substantial way.	The response addresses the criteria in an outstanding way.

Allowable expenditures may include reimbursement to eligible tribes for contracted services with local law enforcement agencies for staffing in support of eligible grant activities.
3. Appendix E: Level One Evaluation Requirements

Guidelines for the Local Evaluation Plan and Local Evaluation Report

For the MMIP grant program, the Board of State and Community Corrections (BSCC) requires grantees to complete what is called a **Level One Evaluation** of their grant-funded project. A Level One Evaluation focuses on achievement of the project's goals and objectives. Demonstration of completing this requirement will require the submission of two documents, a Local Evaluation Plan and a Local Evaluation Report. Both are described below along with their due dates.

- **Local Evaluation Plan (LEP)** – A written document that describes the data collection, management, and analysis and reporting plan that will be implemented to ensure that achievement of the project's goals and objectives can and will be assessed. Ideally it should be developed before the project starts or during project implementation, before services or activities begin. It is due by 5 p.m. on April 30, 2026.
- **Local Evaluation Report (LER)** – A written document that provides the interpretation of various data elements intended to assess whether the project was successful in achieving its goals and objectives. It is due by 5 p.m. on June 1, 2029.

These guidelines identify the minimum required content that must be included within each document, respectively.

LOCAL EVALUATION PLAN

Cover Page

The cover page provides a descriptive report title and identifies the grantee(s), author(s), project period, and funding source.

Project Overview

This section provides a concise overview of the project's activities, services, or interventions, emphasizing their relevance to the target population (if applicable). The information provided should focus on the essential information necessary to understand the project's goals and objectives (next section). It should not describe the need for the project. This section shall not exceed two (2) pages in length.

Data Collection Plan

For each of the project's goals and associated objectives, this section identifies the data elements, including their source and frequency of collection, that will be used to measure their achievement. To complete this section, first use the table template provided (see example below) to list each of the project's goals and associated objectives as documented in the grant agreement.³ One table template should be used for each goal and its associated objectives. Next, complete each table by listing, on separate rows, each distinct data element that will be collected to measure achievement toward the respective goal or its objective(s). For each data element, use the remaining columns to identify the data source, frequency of data collection, and the goal or objective that is the target. Definitions for these terms follow.

³ The goals and objectives shall be those within the grant agreement unless changes were preapproved by the assigned BSCC Field Representative.

- *Data element* – a basic unit of information, or data, to be collected that has a unique meaning (e.g., gender, race, city, age, arrest date, graduation rate). Please note that the data elements must be logically related to the respective goal or objective it is intended to assess.
- *Data source* – the location from which the data element originates (e.g., intake form, case management system, standardized assessment, interview, focus group, MOU with partner agency).
- *Frequency of data collection* – defines how often the data element will be collected or pulled from the data source (e.g., at enrollment, at project/program exit/completion, every 6 months, annually, quarterly, during case management sessions, at course completion).
- *Target* – the goal or objective(s) that the data element is intended to assess.

Data Management

This section provides a concise description of the process that will be used to acquire, validate, store, protect, and monitor the data elements identified in the section(s) above. The description shall not exceed one page and should, at a minimum, include:

- Identification of who is responsible for implementing the data collection plan(s).
- Detail data sharing agreements with external partners, if applicable.
- How the data will be monitored throughout the duration of the project and adjustments, if needed, will be identified and made in a timely manner to the data collection plan(s).
- How incomplete or inconsistent data will be identified and corrected.
- Where the data will be stored and kept secure.

Data Analysis and Reporting

This section provides a concise description of the process that will be used to analyze and present the data in a meaningful way. The description shall not exceed one-page and should, at a minimum, include:

- Identification of who is responsible for analyzing the data.
- How the data will be used to determine achievement of the goal(s) or objective(s) (e.g., comparison between two points in time).
- The analytical tools that will be used (e.g., Excel, Sheets, SPSS, SAS, R).
- Identification of who is responsible for communicating the findings and writing the LER.

LOCAL EVALUATION REPORT

Cover Page

The cover page provides a descriptive report title and identifies the grantee(s), author(s), project period, and funding source.

Project Overview

This section provides a concise overview of the project's activities, services, or interventions, emphasizing their relevance to the target population (if applicable). The information provided should focus on the essential information necessary to understand the project's goals and objectives (next section). It should not describe the need for the project. This section shall not exceed two (2) pages in length.

Goal Achievements

For each of the project's goals, this section(s) should highlight the most important results and analyses of the data elements collected that describe the extent to which the goal was achieved. Follow the results with a brief narrative that provides necessary context to understand the findings. The report writer can decide the proper heading(s) for this section(s). That is, rather than "Goal Achievements" as a single heading and section, a heading that is appropriate for each goal and its achievement can be used to organize the report (e.g., "Recidivism was Reduced by 50 Percent", "85 Percent of Participants Actively Engaged in Treatment"). The goals and objectives of the project should be clearly provided either within the text of this section or by providing the data collection tables from the LEP as an appendix.⁴

Discussion

This section is the final portion of the report and provides a holistic description of the meaning, importance, and relevance of the achievements reported. The content may also include a discussion of limitations, challenges, recommendations for future projects, and lessons learned. This section shall not exceed one (1) page in length.

Grantee Highlight

This section provides the grantee the opportunity to share a brief, visually appealing highlight or success story that provides additional information related to the project's success over the grant cycle. Optional graphs, charts, or photos may be included.⁵ This highlight may be included in a statewide report for the grant program. While every effort will be made to include these in a statewide report, inclusion in the report is not guaranteed. This section shall not exceed one (1) page in length.

Appendix (Optional)

The appendix(ices) may be provided to present the Data Collection table for each goal from the Local Evaluation Plan. Other content may be provided as appropriate.

⁴ These should be the original goals and objectives for the project as defined in the project's proposal unless they were modified with the approval of the assigned BSCC Field Representative. If they were modified, indicate so and provide a brief explanation for the modification.

⁵ The BSCC will only accept photographs in which all persons depicted are over 18 years of age and have consented to both being photographed and to the use and release of their image. By submitting photographs to the BSCC, the submitter acknowledges that all approvals have been obtained from the subjects in the photograph(s) and that all persons are over 18 years of age. Further, by submitting the photographs, the submitter irrevocably authorizes the BSCC to edit, alter, copy, exhibit, publish or distribute the photographs for purposes of publicizing BSCC grant programs or for any other lawful purpose. All photographs submitted will be considered public records and subject to disclosure pursuant to the California Public Records Act.

Appendix F: Glossary of Terms

Case Management

A collaborative process which assesses, plans, implements, coordinates, monitors, and evaluates the options and services required to meet an individual's health needs.⁶

Community-Based Organization

For this RFP, a Community-Based Organization is an organization located in the State of California that has been determined by the IRS to have 501(c)(3) status (i.e., nonprofit).

Community Defined Evidence Practices

A set of practices that communities have used and found to yield positive results as determined by community consensus over time. These practices may or may not have been measured empirically but have reached a level of acceptance by the community. Community defined evidence takes a number of factors into consideration, including a population's worldview and historical and social contexts that are culturally rooted. It is not limited to clinical treatments or interventions. Community Defined Evidence is a complement to Evidence Based Practices and Treatments, which emphasize empirical testing of practices and do not often consider cultural appropriateness in their development or application.⁷

Cultural Competence

Cultural competency is a developmental process in which one achieves increasing levels of awareness, knowledge, and skills along a continuum, improving one's capacity to work and communicate effectively in cross-cultural situations. Strategies for practicing cultural competency include:

- Learning about your own and others' cultural identities
- Combating bias and stereotypes
- Respecting others' beliefs, values, and communication preferences
- Adapting your services to each patient's unique needs
- Gaining new cultural experiences

Cultural Humility

Cultural humility is a reflective process of understanding one's biases and privileges, managing power imbalances, and maintaining a stance that is open to others in relation to aspects of their cultural identity that are most important to them.⁸

Strategies for practicing cultural humility include:

- Practicing self-reflection, including awareness of your beliefs, values, and implicit biases
- Recognizing what you don't know and being open to learning as much as you can
- Being open to other people's identities and empathizing with their life experiences
 - Acknowledging that the person is their own best authority, not you.
 - Learning and growing from people whose beliefs, values, and worldviews differ from yours.

Cultural Relevance

For the RFP, culturally relevant programs incorporate an awareness and understanding of, as well as a capacity to honor, the specific tribal customs, traditions, and beliefs pertinent to the population being served. In a broader sense, cultural relevancy acknowledges the influence of the person's identity characteristics on the person's experience of the world and incorporates perspectives into the

program's environment. These identity characteristics include racial/ethnic, gender, class, religion, educational, sexual orientation, gender identity, family heritage, disability, and any other identity the child communicates as important.

Evaluations (Process and Outcomes)

Process Evaluation⁹

The purpose of the process evaluation is to assess how program activities are being carried out in accordance with goals and objectives. Process measures are designed to answer the question: "What is the program actually doing and is this what we planned it to do?"

Examples of process measures could include:

- Project staff have been recruited, hired, and trained according to the proposal.
- Activities/strategies have been implemented on time according to the proposal.
- Number of interagency agreements entered into by the program compared to the number planned.
- Number of trainings conducted.
- Number of neighborhood meetings conducted.

Outcome Evaluation¹⁰

The purpose of the outcome evaluation is to identify whether the program "worked" in terms of achieving its goals and objectives. Outcome measures are designed to answer the question: "What results did the program produce?"

Examples of outcome measures include:

- Results of pre/post surveys (e.g., changes in the reported confidence/trust in law enforcement among community members).
- Implementation of regular, ongoing community forums where community dialogue takes place.
- Changes in policies at the Lead Agency level to reflect procedural justice principles.

In an evidence-based practice approach, outcome evaluations must include not only the measures but also analysis of the extent to which the measured results can be attributed to the program rather than to coincidence or alternative explanations.

Evidence-based / Promising Practices

Evidence-based practices are programs and strategies that have been found effective at improving outcomes, using rigorous scientific research methods. Programs and strategies may be evidence-based across all populations, or only for particular cultures and identities.

Promising practices are programs and strategies that have shown some positive results and potential for improving outcomes. They may have evidence from use in real-world settings, a strong theoretical framework, and/or expert opinion, but have not been fully replicated in scientific studies. Depending on the level of scientific evidence, these are sometimes referred to as "evidence-informed," "research-supported," or "emerging" practices.

Financial Audit

A financial audit provides assurances that an organization's financial statements are free of material misstatement based upon the application of generally accepted accounting principles.

Goals and Objectives

Goals and objectives are terms in common use, sometimes used interchangeably because both refer to the intended results of program activities. Goals are longer-term than objectives, more broadly stated and govern the specific objectives to which program activities are directed.

In proposals, goals are defined by broad statements of what the program intends to accomplish, representing the long-term intended outcome of the program.¹¹

Examples of goal statements:¹²

- To reduce the number of serious and chronic juvenile offenders.
- To divert nonviolent juvenile offenders from state juvenile correctional institutions.
- To restore the losses suffered by the victims of crimes.

Objectives are defined by statements of specific, measurable aims of program activities.¹³ Objectives detail the tasks that must be completed to achieve goals.¹⁴ Descriptions of objectives in the proposals should include three elements:¹⁵

1. Direction – the expected change or accomplishment (e.g., improve, maintain);
2. Timeframe – when the objective will be achieved; and
3. Target Population– who is affected by the objective.

Examples of program objectives:¹⁶

- By the end of the program, young, drug-addicted juveniles will recognize the long-term consequences of drug use.
 - To place eligible juveniles in an intensive supervision program within two weeks of adjudication to ensure offender accountability and community safety.
 - To ensure that juvenile offenders carry out all the terms of the mediation agreements they have worked out with their victims by program completion.

Human Trafficking

Human Trafficking is a crime involving the exploitation of a person for labor, services, or commercial sex¹⁷.

Key Partner

A Key Partner is an indispensable agency or entity that the grantee does not have direct control over that will provide essential services for the grant project.

Trauma

Trauma is an experience(s) that causes intense physical and psychological stress reactions. It can refer to a single event, multiple events, or a set of circumstances that is experienced by an individual as physically and emotionally harmful or threatening and that has lasting adverse effects on the individual's physical, social, emotional, cognitive, or spiritual well-being.

Trauma-Informed

A Trauma-Informed approach is one in which all parties involved recognize and respond appropriately to the impact of traumatic stress designed to the individual needs and ensure their physical and psychological safety. Trauma-informed care is an organizational structure and system framework that involves understanding, recognizing, and responding to traumatic stress reactions and the effects of all types of trauma.

Qualitative Data

Data/information that is based on written or spoken narratives. The purpose of qualitative data/information is to explain and gain insight and understanding of events through collection of narrative data/information.

Quantitative Data

Data/information that is based on numbers and mathematical calculations. The purpose of quantitative data is to explain, predict, and/or control events through focused collection of numerical data.

Temporary Housing

For this RFP, temporary housing includes reimbursement for hotel/motels stays up to but not exceeding 14-days. Reimbursement for hotel/motels stays must be approved by the BSCC in advance. If temporary housing is requested, it must have a link to a PPA or MMIP grant activities.

Appendix I: Certification of Compliance with BSCC Polices on Debarment, Fraud, Theft and Embezzlement

REQUIRED ATTACHMENT:

You will be prompted to upload this document to the BSCC-Submittable Application.

It is the policy of the BSCC to protect grant funds from unreasonable risks of fraudulent, criminal, or other improper use. As such, the Board will not enter into contracts or provide reimbursement to applicants that have been:

1. debarred by any federal, state, or local government entities during the period of debarment; or
2. convicted of fraud, theft, or embezzlement of federal, state, or local government grant funds for a period of three years following conviction.

Furthermore, the BSCC requires grant recipients to provide an assurance that there has been no applicable debarment, disqualification, suspension, or removal from a federal, state or local grant program on the part of the grantee at the time of application and that the grantee will immediately notify the BSCC should such debarment or conviction occur during the term of the Grant contract.

BSCC also requires that all grant recipients include, as a condition of award to a subgrantee or subcontractor, a requirement that the subgrantee or subcontractor will provide the same assurances to the grant recipient. If a grant recipient wishes to consider a subgrantee or subcontractor that has been debarred or convicted, the grant recipient must submit a written request for exception to the BSCC along with supporting documentation.

By checking the following boxes and signing below, applicant affirms that:

I/We are not currently debarred by any federal, state, or local entity from applying for or receiving federal, state, or local grant funds.

I/We have not been convicted of any crime involving theft, fraud, or embezzlement of federal, state, or local grant funds within the last three years. We will notify the BSCC should such debarment or conviction occur during the term of the Grant contract.

I/We will hold subgrantees and subcontractors to these same requirements.

A grantee may make a request in writing to the Executive Director of the BSCC for an exception to the debarment policy. Any determination made by the Executive Director shall be made in writing.
