

ADULT CORRECTIONS OFFICER SUPPLEMENTAL CORE COURSE MANUAL

Revised November 2020

Board of State & Community Corrections
2590 Venture Oaks Way, Suite 200
Sacramento CA 95833

ACKNOWLEDGEMENTS

Under the direction of an Executive Steering Committee (ESC), 17 workgroups of subject-matter experts (SMEs) met to review and make recommendations for changes to the core training program. The workgroups included more than 200 entry-level, supervisor, manager and administrators from 53 of California's 58 counties. They were representative of the diversity of the State in location, size, and processes of correctional agencies and included:

- 82 participants from Sheriff's Departments,
- 137 participants from Probation Departments for both juvenile and adult,
- 3 participants from Police Departments that operate a jail, and
- 8 participants from private training providers (includes CA Community Colleges).

Specialized SME workgroups included:

- 22 behavioral health SMEs included clinicians, line staff and supervisors working with offenders with mental health concerns, other state and local agencies currently providing mental health training (California Highway Patrol, California Department of Corrections and Rehabilitation, Los Angeles Police Department and DHS) and providers of mental health services, and
- 23 defensive tactics instructors from agency and private core providers.

The Board of State and Community Corrections (BSCC) is extremely grateful to all those who volunteered their time and hard work in making this revision process successful. Their support and assistance, along with their agencies' generous contribution of their time, enables California to maintain a comprehensive and current training program for entry level corrections and probation officers.

Specifically, the BSCC wishes to thank the Local Selection and Training Standards (LSATS) ESC members listed below:

INTRODUCTION

The Adult Corrections Officer Supplemental Core Course (Supplemental to the Peace Officer Standards and Training (POST) Basic Academy) is designed for the adult corrections peace officer who:

1. Has successfully completed the POST Basic Academy Course for law enforcement officers;
2. Completes this course after the POST Basic Academy;
3. Is employed primarily as a peace officer as defined in Penal Code Section 830.1; and,
4. Has been assigned by the administrator of a local corrections agency to perform the job responsibilities of an adult corrections officer.

This course consists of a minimum of 79 hours of instruction in specific instructional objectives.

Purpose and Scope of This Manual

The primary purpose of this **Core Training Manual** is to present the core training standards for Adult Corrections officers (ACO). These standards include the required training classes, performance objectives, instructional hours, and testing requirements for training that is required to be completed within one year of hire (core training). The information in this manual is designed for core training providers to provide an overview of the content of the entry-level core course. For more in-depth coverage of the core course certification and delivery requirements, training providers are encouraged to thoroughly read the *STC Policy and Procedure Manual for Presenting Local Corrections Core Courses*.

This Supplemental ACO core training manual is divided into several sections.

- A summary description of the ACO job as it is widely performed across the State and provides information about how core training is linked to the requirements of the job.
- BSCC's role in standard development and authority to set training standards for local corrections agencies.
- An overview of the core training program and how it was developed
- The overarching principles that were used to guide the development of the core training standards.
- A summary of changes made to the curriculum in this revision of the core training standards.
- General information about the core training program.
- Information about adding optional agency specific training (Topic 20.0) to a core training course.
- Information about testing performance objectives
- An outline of the testing requirements for each class.
- An outline of the content of the core course including the topics, classes, how much instructional time required for each.
- General information and format, prerequisites and the prescribed objectives for the course. These objectives are the fundamental building blocks of the curriculum. They provide the goals toward which trainees will strive and the basis for developing methods to evaluate performance effectiveness.

Effective Date of This Manual

The training standards presented in this manual are effective July 1, 2020 and remain in effect until replaced. STC periodically reviews and updates the standards. Minor revisions will be noted in this manual with a revision date on the front cover and footnote. Major revisions will be accomplished by retiring and replacing this manual.

ADULT CORRECTIONS OFFICER JOB DESCRIPTION

The ACO job can differ from one county or city to another and from one assignment to another in the same jurisdiction. This core training course relates to the activities or tasks performed by most adult corrections officers throughout the state, regardless of the location, size, budget, etc. of the employing agency. The ACO job can differ from one county or city to another and from one assignment to another in the same jurisdiction. This core training course relates to the activities or tasks performed by most adult corrections officers throughout the state, regardless of the location, size, budget, etc. of the employing agency. Generally speaking, the ACO ensures that adults in county custody are provided with a safe and humane environment. The ACO is responsible for the custody, supervision, treatment and rehabilitation of those adults. In some counties, the ACO is a peace officer and exercises peace officer duties.

This job description comes from two sources. First, the overall mission of the ACO job and its place in the California Criminal Justice System are established in state law. The second and primary source of information about the job comes from the statewide job analysis research conducted periodically by the STC Program of the BSCC.

BACKGROUND AND AUTHORITY

The BSCC was established on July 1, 2012, and was formerly known as the Corrections Standards Authority (CSA), and prior to 2005, as the Board of Corrections (BOC) which was created in 1944 to provide leadership and coordination for local corrections agencies. Among other duties, the BSCC sets minimum standards for the selection and training requirements for local corrections personnel employed by Sheriff's Offices, Probation Departments, and Police Departments, including the core training standards presented in this manual. These responsibilities are defined in California Penal Code Sections 6024 through 6037 and carried out by the STC Division of the BSCC.

About the Standards and Training for Corrections Program

The STC program was established in 1980 to establish a statewide standard to raise the level of competence of the state's local corrections and adult corrections personnel. The program accomplishes this by developing selection and training standards, providing a statewide course certification and delivery system, conducting compliance reviews, and providing technical assistance, training and funding to local corrections agencies.

The STC program assists local corrections agencies in ensuring they select qualified personnel and train them to a statewide standard to support proficient job performance. STC establishes legally defensible job-related skills training standards and selection criteria that helps protect agencies from failure to training and fair employment challenges. Job relatedness is provided through a thorough job analysis and assessment process that demonstrates the relationship between the standard (course subject matter or employment screening tool) and the job being performed.

Local corrections agencies participate in the STC program voluntarily. Through their participation, agencies receive access to the statewide standards, the certification and course delivery system, and training and technical assistance provided through the STC program and agree to follow all program regulations, policies and procedures. Local corrections agencies also receive funding to help offset the costs of complying with the state standards.

Authority

The STC program is authorized in Penal Code Section 6035 and 6036. Supporting regulations are found in Title 15, Division 1, Subchapter 1, Articles 1 - 9, Sections 100-358 of the California Code of Regulations (CCR).

CORE TRAINING OVERVIEW

California Code of Regulations Sections 169-185 requires everyone hired into an entry-level corrections position to complete a core course of training, prescribed by STC, within one year of hire, assignment, or promotion. This includes:

- Adult Corrections Officer (ACO)– responsible for the supervision and custody of adults detained in an adult facility
- Juvenile Corrections Officer (JCO)– responsible for the supervision and custody of youth detained in a juvenile facility
- Probation Officer (PO)– responsible for the supervision of youths and adults on probation
- Supervisor – responsible for supervising staff within a facility or probation function
- Manager/Administer – above first line supervisor and responsible for managing a facility or probation function

What Is and Is Not Included in Core Training

Core training is the entry-level or basic training provided within the first year of employment to any employee hired into any of the entry-level corrections positions listed above. Core training is based on the tasks that each employee in the respective entry-level position must perform. Core tasks are identified through job analysis research conducted by STC. These analyses are periodically updated due to the evolving nature of the local corrections professions. Each core course has specific content and a minimum number of instructional hours. The core courses for ACO, JCO and PO also include prescribed classes, performance objectives, training notes and testing requirements to measure learning. Core training does not fulfill all the training requirements for an entry-level employee. Many employees are also required to complete training mandated by the Commission on Peace Officer Standards and Training (POST) such as PC 832 training. Additionally, counties may have local training requirements that are not met through core training. It is the responsibility of each hiring agency to identify and fulfill the training requirements for their employees.

When Is Core Training Required

Although core training can be completed within one year of hire, it is designed as a pre-assignment model and assumes that the students have no prior training or work experience. The training needs of experienced employees are not covered by the core course. BSCC strongly encourages agencies to deliver core training to students immediately upon hire and prior to performing the duties of the job.

Who Can Delivery Core Training

Most core courses are delivered by corrections agencies to corrections employees. However, a small number of core courses are delivered by community colleges or private training providers and can include students who are not hired to one of the positions listed above but are enhancing their skills to become employed at a local corrections agency. All core courses must be certified by STC. Information about the certification process can be found in the STC publication *Policy and Procedure Manual for Presenting Local Corrections Core Courses*.

Job Relatedness and Defensibility of Core Training

The major tasks and responsibilities of the ACO job in the State of California are defined by a comprehensive and statewide job analysis completed by the BSCC in 2015. The primary data gathering instrument in the job analysis was a structured task questionnaire completed by nearly 5,000 adult corrections officer job incumbents and supervisors. The questionnaire identified the tasks that are performed by adult corrections officers, the frequency that each task is performed, and how important each task is to successful job performance. The ratings from these questionnaires were used to identify the core tasks upon which this curriculum is built and provides the legally defensible link between training and job requirements. The 2015 job analysis report can be found on the STC web page.

There are a great many tasks performed by local corrections professionals around the state. To be included on the list of core tasks, a task must meet the statistical criteria for frequency of performance, importance, and statewide application. After the core tasks were identified, incumbents and supervisors identified the knowledge, skills and abilities (KSA) required to perform each task. The tasks and KSAs are the basis for developing performance objectives that can be directly tied back to job requirements. The establishment of the relationship between the required training and job performance (job relatedness) provides legal defensibility of the core training requirements.

ASSUMPTIONS GUIDING DEVELOPMENT OF THE ACO CORE COURSE

Training design involves a series of decisions, many of which are critical to producing an effective instructional program. For example, the designers must repeatedly make decisions regarding the inclusion or exclusion of specific content in the training course. While such decisions are often complex and difficult, they are much more easily made if some basic assumptions or parameters have been established for the project. The assumptions that guided the development of the ACO core course are presented below.

Assumption #1: The content of the training course must be job related.

This assumption refers all decisions on training content, methods, and format back to the actual demands of the adult corrections officer's job. To the extent that knowledge or skills are not either frequent and/or essential to job performance as identified by job analysis, they are not included in the training course.

Assumption #2: The training course should specify the training needed by entry-level adult corrections officers who have no prior training or experience in corrections.

This assumption identifies entry-level ACOs as the target audience for the core training course. The training needs of experienced ACOs are not covered by this course. Because core training can be provided up to one year after hire, some ACOs attending core may already have some work experience, but that experience can vary widely and is not considered in core training. The assumption of no prior training or experience ensures that the core training course covers the needs of all entry-level personnel.

Assumption #3: The training course should specify only the knowledge and skills that are essential for the newly hired adult corrections officer to meet minimum performance standards for entry-level personnel and to obtain maximum benefit from subsequent on-the-job training and experience.

The core training course should not be expected to produce an experienced ACO capable of handling every job assignment. The core training course provides the trainee with the minimum concepts and skills necessary to perform the job and to accelerate later on-the-job learning and training.

Assumption #4: Trainees will complete the entire core training course prior to their first actual work assignment.

Assumption #4 is derived from Assumptions #2 and #3. Since trainees are assumed to have no prior background in adult corrections, the core training course should be completed before trainees begin performing the complex requirements of the job.

Assumption #5: The core training course should be administratively feasible and efficient.

This assumption helps ensure that the standards are reasonable and can be implemented within operational and administrative constraints (e.g., policies, time, budget, personnel, etc.).

SUMMARY OF CHANGES TO THE ACO CORE COURSE

In 2019, the BSCC approved a comprehensive revision to ACO core training. It included reviewing the entire content of core in view of the most recent job analysis and making changes to curriculum to address gaps, remove redundancies, and ensure the training met the needs of today's adult corrections officer. Multiple workgroups were convened over an 18-month period to complete the analysis and make revision recommendations. The workgroups included more than 200 entry-level, supervisor, manager and administrators from 53 of California's 58 counties. They were representative of the diversity of the State in location, size, and processes of correctional agencies. The revisions include:

Increased Core Academy Hours: Supplemental core training was increased by 23 hours. This is a net increase that reflects the comprehensive review of content that resulted in the removal of some content and the addition of other content. The new ACO Supplemental core course is 79 hours.

Inclusion of Prerequisites – The structured order of core was removed to provide more flexibility to providers in presenting core courses. Instead, the revised core course includes prerequisites only for classes that have specific information that must be learned prior to taking another class are prerequisite classes. The prerequisite is noted under the title of any class that has one. All other classes can be taught in any order.

Expanded Behavioral Health Topic – The training content related to mental and behavior health has been greatly expanded and enhanced. For this topic only, training providers will be provided with complete lesson plans, instructor and participant materials, and testing materials. The topic includes the following new classes:

- Trauma
- Interventions and Resources
- Stigma and Bias
- Liability
- Safety
- Emotional Survival

Note: All Behavioral Health lesson plans have been developed for the full ACO core. The supplemental core has been designed using only certain performance objectives out of the Behavioral Health curriculum.

Providers have the option to deliver only these performance objectives to meet the minimum standard or to deliver the entire Behavioral Health topic from the full ACO core. If providers decide to teach only these minimum performance objectives, lesson plans must be developed using only these performance objectives.

Additional new classes and topics – In addition to the expanded Behavioral Health topic, the revised ACO core course includes several new or significantly expanded classes as follows:

- Social Media
- Crisis Communication and De-escalation Techniques
- Evidence Based Programs and Practices
- Sexual Assault and Abuse
- Cultural Diversity and Ethnic Disparity
- Gender Identity

Revision of Testing Time for Defensive Tactics – The required testing time for Defensive Tactics is now flexible. Testing for Defensive Tactics is demonstration based, meaning each student must demonstrate their ability to correctly perform the skill. This can take more or less than the required testing time depending on several factors including class size, instructor availability and student needs. To address this challenge, the required testing time can be increased or decreased as needed. The testing time in this manual is based on an estimated student to instructor ratio of 8 to 1. If an agency exceeds or falls below the recommended testing time, it must be noted in the certification. This is the only class with flexibility in testing hours.

Inclusion of Training Notes – A new addition to the core courses is the use of training notes. Throughout the revision process subject matter experts made recommendation that certain information be included in the course content but did not feel that the content needed to be tested. In response to this suggestion, training notes are included in those classes. Training notes are required content that must be covered by the instructor but do not need to be tested.

GENERAL INFORMATION ON CORE COURSE CONTENT AND FORMAT

STC sets a core training program that applies statewide. To account for the variation in policies and procedures across the state, core training standards are set at the outline level. This includes determining which topics and classes are required, the performance objectives for each class, the training notes, the instructional hours, and the testing time and method.

The performance objectives are written as measurable statements that describe expected learning outcomes to be achieved and demonstrated by a trainee upon completion of the core training course. Training notes are concepts that must be covered in the class but are not required to be tested. The instructional time is the minimum amount of time for the topic.

Training providers are encouraged to exceed these minimums and may request approval for certification of these increased time allocations. Except for the Behavioral Health topic, STC does not provide lesson plans, tests, or any other instructional materials. It is the responsibility of the training provider to develop lesson plans for each class identified in the core manual that meets the minimum STC Lesson Plan Policy

Defensive Tactics

STC recommends that providers set defensive tactics instructor to student ratio with safety as a priority. While there is no set requirement, providers are encouraged to use a maximum of 8 students per instructor for all defensive tactics classes.

Instructor Qualifications

This course was designed under the general assumption that instructors have some type of instructor experience and/or subject matter expertise. No special instructor qualifications are required unless specifically noted at the beginning of a topic or class. A general instructor development course is recommended for all core instructors.

Prerequisites

Topics and classes do not need to be taught in any specific order, with the following exceptions:

- Entire topic California Criminal Justice System should be the first topic taught as part of the core curriculum.
- Booking and Intake class should be taught before the Releasing Offenders class.
- Gang Overview class should come before the Supervising Offenders topic and the Classification of Offenders topic.

Keeping Content Current

Realizing that laws and policies frequently change, instructors must continuously monitor their lesson plans and update content and references (case law, policies, etc.) to ensure that it is current and accurate. The *Policy and Procedure Manual for Presenting Local Corrections Core Courses* and other BSCC publications provide additional information on lesson plan development, test item writing, and procedures for presenting the curriculum.

AGENCY SPECIFIC TRAINING (OPTIONAL)

Agencies that wish to add instructional content to the course that is not included in the performance objectives will need to designate it as Topic 20.0 (Agency Specific Training) in the core certification.

This place holder topic may be used by the agency or provider for the presentation of subject matter that meets a specific need for the target trainees, such as agency-specific policies and procedures, special issues, and additional content beyond the core course prescribed performance objectives. The provider will need to develop measurable performance objectives for the agency-specific material to secure STC certification of the subject matter. Time devoted to Topic 20.0 material is in addition to the minimum 79 hours prescribed in the ACO Supplemental core course.

Agency Specific Training material might include but is not limited to instruction in the following areas: court consent decrees, CPR/First Aid, or other internal policy and procedure training. Performance objectives must be written for each agency specific class.

Performance Objectives are like the objectives listed in the body of this manual. The provider or agency is required to provide objectives for any agency specific content that has been added to the course. Use the example below when writing objectives for Topic 20.0 material.

Note: This core may not fulfill all the training requirements for an entry level adult corrections officer, such as statutory and local policies (e.g., first aid/CPR or firearms).

TESTING PERFORMANCE OBJECTIVES

STC sets the standard for the type of test to be administered for each performance objective. STC uses three types of tests:

1. MCT (Multiple Choice Test) – This can include multiple choice, fill in the blank and true/false items.
2. WST (Written Skills Test) – This is a writing activity that can include essay questions or completing a form. This shall be graded as a pass/fail.
3. BST (Behavioral Skills Test) – This form of testing requires each learner to demonstrate the skill and be graded on their performance using an evaluation tool developed by the training provider. This shall be graded as a pass/fail.

Each performance objective is required to be tested. The type of test is indicated in parenthesis at the end of the performance objective.

It is the responsibility of the training provider to develop the tests. For the most part, instructors should write the test items because they are best positioned to link the items most accurately to the lesson plans.

When developing MCT tests, the best practice is to allocate one minute of time for multiple choice type test questions. The testing time requirement in the core course is for MCT testing. It does not include time for WSTs and BSTs. The administration time for these two types of evaluation are built into the instructional time allotted for the classes that require them.

Refer to the BSCC Website Publication *Testing in Core Courses* for help in developing MCT, WST and BST items.

Note: Many classes have, in addition to performance objectives, training notes. This content is required to be covered by the instructor but will not be tested.

MINIMUM TEST ITEMS BY CLASS

The table below indicates the minimum number of MCT items that are required per class. For a course to be certified, the core certification must indicate that at least the minimum required number of MCT items that will be tested for each class. It may be helpful for providers to refer to this table both before and after constructing the MCT items.

- 19.9.F Be able to identify the effects trauma has on you and your family.
- 19.9.G List possible healthy outlets.

ATTACHMENTS

ATTACHMENT 1: LESSON PLAN POLICY (REVISED JULY 1, 2019)

STC-Request for Certification (RFC) courses (annual and core) must have a written lesson plan. A copy of the lesson plans must be made available to the STC Field Representative **upon request**.

Best practices indicate detailed lesson plans enhance the development and delivery of training. Lesson plans help ensure quality training delivery by providing detailed information about the delivery of instructional objectives, instructional methodology, testing, and classroom activities. Furthermore, lesson plans provide written documentation of training.

Components of a Lesson Plan

STC does not require a standardized format; however, the lesson plan must be in such detail that a substitute instructor with requisite knowledge of the subject could teach from the lesson plan without contacting the instructor for clarification.

Along with the approved RFC, all STC-RFC lesson plans must contain the following components:

Room Set-Up:

How the classroom needs to be set up (e.g., classroom style, small group, theater, etc.). Note: If part of a longer course, this does not need to be repeated for each class if room set-up will not change.

Instructor Material(s)/Equipment Needed:

All material and equipment needed, including handouts and reference material for the class or module.

Performance Objectives and Training Notes (if a core class):

These should be listed (include performance objective/training note number indicated in core manual if a core class and also reference in lesson plan where material is covered).

Time for Each Section or Exercise/Activity:

The beginning and end time or amount of time needed for each exercise/activity, section, or topic.

Trainer's Script:

Any notes to remind the trainer of anything pertinent in that section. This may include key concepts, targeted responses, activity instructions, etc. It is not necessary to capture everything the instructor will say, for example, stories drawn from the instructor's own experience to illustrate or underscore a key concept would not necessarily be included. This should be written to a level that a person that is familiar with the content and course could step in and complete the training.

Handout/Classroom Materials:

The distribution of handouts and classroom materials should be noted in the section of the lesson plans where the distribution occurs.

Testing Type and Description of BST/WST completion (if applicable):

The type of test(s) to be given in the class or topic; i.e., Multiple Choice Test (MCT), Behavior Skills Test (BST), and Written Skills Test (WST). Describe in writing each BST and WST to be completed in the class or module. This can be attached to the lesson plan as a handout and labeled appropriately as to when to administer it.

ATTACHMENT 2: TEST ADMINISTRATION POLICY (EFFECTIVE JULY 1, 2013)

Core providers must have written policies and procedures for exam administration. Successful completion of core, including the exams, is part of the selection process. Because the exams are used to measure successful completion of core, the purpose of exam policies and procedures is to ensure fair and equitable testing. No examinee should have an advantage or disadvantage of any kind. Following standardized policies and procedures helps ensure that each examinee is provided with a guarantee of fair testing and an equal opportunity to maximize exam performance. This policy must be available for review by STC staff upon request.

The components identified below must be addressed in core providers' policies and procedures for testing.

I. Exam Administration Staff

- a. Qualifications (e.g., position, classification)
- b. Training requirements (initial and periodic refresher training)
- c. Responsibilities

II. Exam Administration Procedures

- a. Exam room environmental characteristics (e.g., good lighting, comfortable temperature, adequate ventilation, freedom from noise and interruption)
- b. Exam room preparation (e.g., working clock, remove materials on walls that may provide information to examinees, arrange seating with a minimum space distance, post any required information)
- c. Staff requirements for number of examinees (e.g., exam supervisor and a proctor for 1 - 20 examinees, an additional proctor for each additional 20 examinees).
- d. Accommodations for documented disabilities in accordance with the Americans with Disabilities Act (ADA) allowed in the exam room
 - i. Accommodations that can be handled with a regular exam administration (e.g. use of magnifier)
 - ii. Accommodations that require a special exam administration (e.g. extended testing time, reader)
- e. Admitting examinees into the exam room
- f. Review and remind examinees of "code of ethics" (responsible for confidentiality and security of the exam)
- g. Administering the exam – follow proctoring scripts
- h. Distributing exam materials
- i. Timing and break policies
- j. Collection and return of secure exam materials

III. Test Security

- a. All exam (MCTs, test scenarios) materials must be stored in locked location always unless being administered
- b. Limited access to exam materials
- c. Test security agreement signed annually by all exam staff
- d. Test questions should never be brought into the classroom unless being administered

IV. Maintaining Security in the Exam Room/Proctor Responsibilities

- a. Accounting for test materials
- b. Conducting the test (remain vigilant and do not engage in activities that are not exam related)
- c. Monitor equipment use

V. Procedures for Reporting and Handling Test Irregularities and Compromises

- a. Test irregularities
 - i. Misconduct or inappropriate behavior of examinees
 - ii. Test question error or ambiguities
 - iii. Student complaints
 - iv. Other incidents or disturbances (e.g., uncontrollable events such as fire alarms, power outage)
- b. Compromises
 - i. Test is lost or stolen
 - ii. Unauthorized access to a test
 - iii. Examinee copies from another examinee
 - iv. Individual attempts to impersonate and take a test for an examinee
 - v. Examiners and examinees share information about an exam
 - vi. Examinee receives answers to questions before the test
- c. Investigating compromises
- d. Consequences of a security breach
 - i. Agency
 - ii. Examiners
 - iii. Examinees

VI. Accommodated Test Administration

- a. Requests for accommodations
- b. Required documentation for disabilities

VII. Document Retention Policies

- a. Test materials that should be retained in a secure location
- b. Retention schedule for test materials (abide by record retention policy of your agency)

VIII. Emergency Plan

- a. Identify staff responsible for managing an emergency
- b. List emergency supplies available in the exam room
- c. Identify alternative exam rooms and secure transportation of tests
- d. Detailed plans for how to handle specific emergencies (e.g., violence, natural disasters, illness, hazardous waste, bomb threat)

IX. Test Development

- a. Instructors develop own test questions
- b. Write at least two test questions for each performance objective; one for test and one for remedial test. Best practice would be one additional question in case there are problems with the other two
- c. Review evaluate (Are the items functioning?) and revise tests regularly
- d. Test development oversight by training coordinator

X. Remediation

The provider testing policy will identify how many times a trainee will be remediated in cases where he or she does not pass the Multiple-Choice Test (MCT), Written Skills Test (WST), Behavior Skills Test (BST). To successfully complete the course, each trainee must pass all tests.

The policy will minimally include:

- a. What is the provider's cut-off score for each test? This does not include WST or BST, which are pass/fail only.
- b. Procedure for the re-taking of a new test, with new test questions.
- c. The number of test failures that constitute a course failure.
- d. Briefing on testing procedures and successful course completion requirements to trainees prior to first test delivery.
