# JAIL PROFILE SURVEY

## EXPLANATION OF RESULTS

The following pages contain the Jail Profile Survey results for the fourth quarter of 2003. Page 1 contains the quarterly totals based upon the monthly and quarterly data submitted to us by the participating jurisdictions. Pages 2 and 3 show the trend data for variables we have been tracking for the last ten years. The remainder of this page provides explanations and clarifications of the data presented.

### Page 1

- Unless otherwise noted, "projected totals" are based upon the average per day for the variable in question. For example, there was an average of 75,264 inmates per day in local jails (excluding Type I's) during the three-month span of October to December 2003.
- For some variables (other than ADP), we did not receive data from all jurisdictions. We compute the percentage of the ADP that was housed in the jurisdictions that did supply their data for the variable in question. Next, we increase the received number for the variable in question by an amount that estimates the statewide total. For example, if 90% of the state's ADP was housed in jurisdictions that provided us with the number of Three Strike inmates, we would increase that number by 1/9<sup>th</sup> to estimate the state total.
- The number for "Bookings" is the average of the monthly totals for October, November, and December.
- For the following variables, the numbers presented are the totals as of the mid-quarter (i.e., November 15, 2003): Pretrial Release, Early Release, 2 and 3 Strikes, Felony Warrants, Misdemeanor Warrants, Juveniles in Custody and Undocumented Aliens.
- Assaults is the total number of serious inmate assaults on staff (resulting in a crime report), statewide, during the fourth quarter of 2003.

### Pages 2 and 3

- The data in the 10-Year Summary tables are based upon survey data which the Board has gathered since the early 1980's.
- Prior to 1995, yearly averages were reported to the Board on an annual basis. Yearly averages from 1996 on have been the average across the 12 calendar months. In 1995, the yearly figure reported is the fourth quarter average, since we do not have data from the first three quarters.

# BOARD OF CORRECTIONS JAIL PROFILE SURVEY

**Reporting Period: October to December, 2003**

### County Jail Populations

ADP <sup>a</sup>	75,264 <sup>b</sup>
Holding Areas	1,537
Average "Under the Roof" <sup>c</sup>	76,801 <sup>d</sup>
Highest One Day Count	80,698 <sup>e</sup>

### Special Use Beds

Medical Beds	909
Mental Health Beds	3,403

### County Jail Populations

Felony	58,161
Misdemeanor	17,103
Total	75,264
Non-Sentenced Males	43,301
Non-Sentenced Females	6,239
Sentenced Males	22,260
Sentenced Females	3,464
Total	75,264
Maximum Security Inmates	22,569
Medium Security Inmates	35,198
Minimum Security Inmates	17,497
Total	75,264

### Released Per Month Due to Lack of Space

Pretrial Release	6,578 <sup>f</sup>
Early Release	6,945 <sup>f</sup>
Total	13,523

### Inmates with 2 and 3 Strikes

2 Strike Inmates	3,826 <sup>g</sup>
3 Strike Inmates	1,866 <sup>g</sup>
Total	5,692

### Unserviced Warrants

Felony Warrants	285,123 <sup>g</sup>
Misdemeanor Warrants	2,059,261 <sup>g</sup>
Total	2,344,384

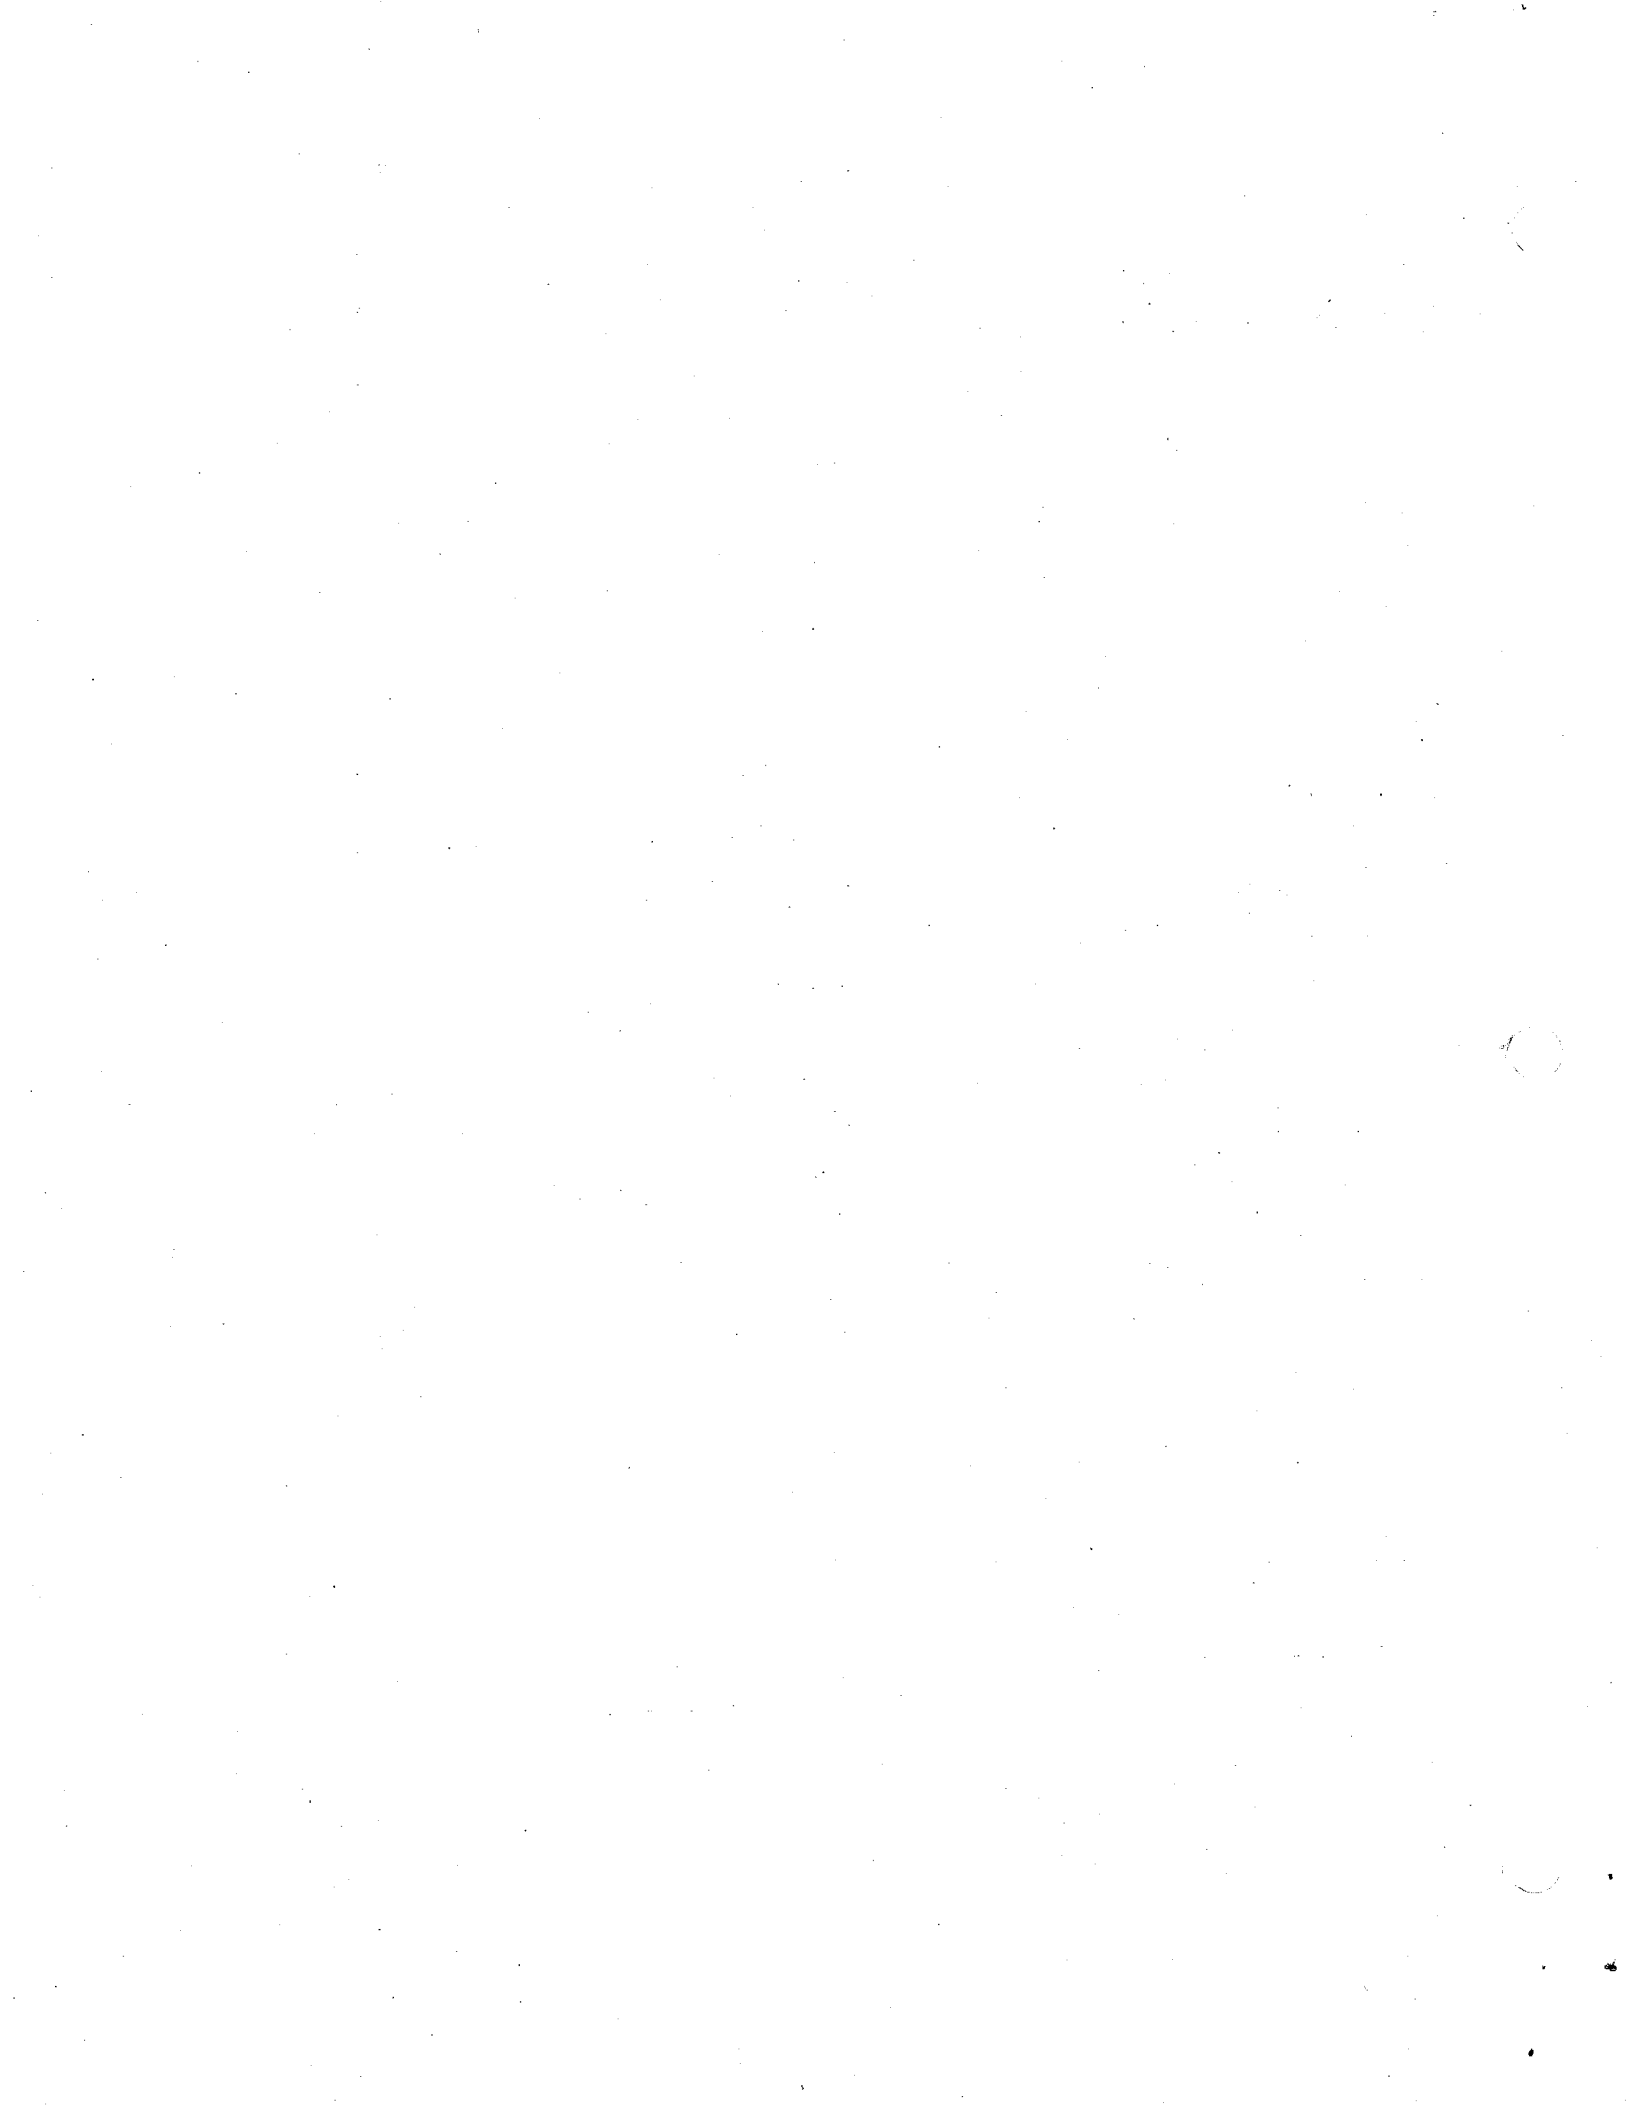

### Inmates From Other Jurisdictions

Housed on Federal Contract	3,572
Housed on Contract with CDC	2,829
From Other Counties on Contract	154
Awaiting Transport	1,344
Total	7,899

### Other Jail Profile Survey Variables

Bookings Per Month	100,988 <sup>f</sup>
Juveniles in Custody	78 <sup>f</sup>
Criminal / Illegal Aliens	8,520
Assaults On Staff	271

- a. The Average Daily Population for all jurisdictions (excluding Type I's) does not include inmates in holding areas.
- b. Unless otherwise indicated, the numbers reported are the average across the days in the quarter.
- c. "Under the Roof" is the sum of the Average Daily Population plus the average daily number of inmates in Holding Areas.
- d. Totals may not be the exact sum of the subtotals due to rounding.
- e. The sum of all Highest One Day inmate population counts from all jurisdictions.
- f. These data are collected on a monthly basis, this figure is an average of the total numbers collected each month during this quarter.
- g. These data are one-day snapshots collected at the end of the quarter.

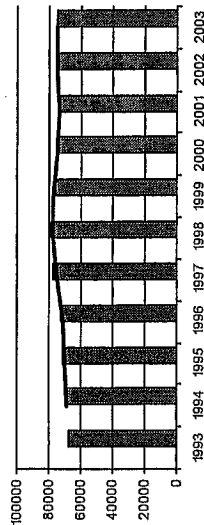

# Jail Profile Survey

2003

## Average Daily Population

10 Year Summary									
1993	1994	1995	1996	1997	1998	1999	2000	2001	2002
67,576	69,233	71,107	72,007	76,894	79,143	76,311	74,868	73,824	75,156

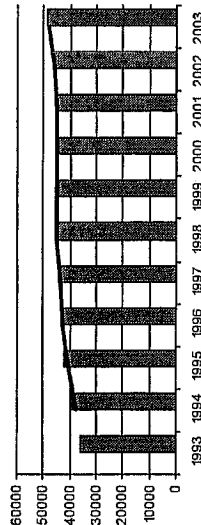

## Quarterly Results

	Q1	Q2	Q3	Q4	Average
2002	73,869	75,604	75,544	75,581	75,156
2003	75,553	75,257	75,288	75,264	75,339

The ADP for the 4th Quarter of 2003 was 75,264. The ADP for the 2003 calendar year was 75,339 (very similar to the 75,156 ADP in 2002). For the last two years, the ADP has been in a holding pattern resulting from the California budget crisis. Even though bookings are at the highest level since 1994, and a number of other indicators suggest that jail populations should be increasing, the ADP has remained static. This has been achieved through a number of administrative and policy changes that serve to control the growth in the ADP. For example, as of the 4th Quarter of 2003, 13,523 individuals per month were given pretrial releases or early releases from their sentences, due solely to lack of jail space (i.e., jail space jurisdictions do not have the resources to operate).

## Non-sentenced ADP

10 Year Summary									
1993	1994	1995	1996	1997	1998	1999	2000	2001	2002
35,899	39,122	42,237	42,539	44,593	45,303	44,493	44,943	45,204	46,817

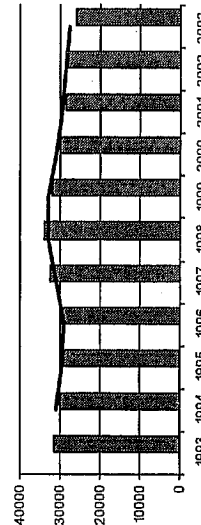

## Quarterly Results

	Q1	Q2	Q3	Q4	Average
2002	46,341	46,941	47,438	46,541	46,817
2003	48,296	49,088	49,518	49,539	49,115

For the fourth quarter in a row, the non-sentenced ADP reached a record level (49,539 inmates). The yearly non-sentenced ADP for 2003 was about 2,300 inmates higher than for 2002, and over 13,000 inmates higher than ten years ago. Jail administrators have fewer options regarding alternatives to incarceration for non-sentenced inmates than for sentenced inmates. Therefore, during times when there is an artificial ceiling on the ADP, the proportion of non-sentenced inmates continually increases.

## Sentenced ADP

10 Year Summary									
1993	1994	1995	1996	1997	1998	1999	2000	2001	2002
31,677	30,142	28,870	29,468	32,301	33,841	31,819	29,925	28,620	28,338

## Quarterly Results

	Q1	Q2	Q3	Q4	Average
2002	27,529	28,663	28,107	29,041	28,338
2003	27,257	26,169	25,770	25,725	26,225

As one might expect, the result for the sentenced ADP is the opposite of that found for the non-sentenced ADP. The sentenced ADP is at a ten-year low at 25,725 for the 4th Quarter of 2003. The yearly sentenced ADP for 2003 (26,225) is over 5,000 inmates fewer than the yearly sentenced ADP (31,677) for 1993. This finding is especially significant when one considers that the 2003 total ADP is almost 8,000-inmates higher than it was in 1993.

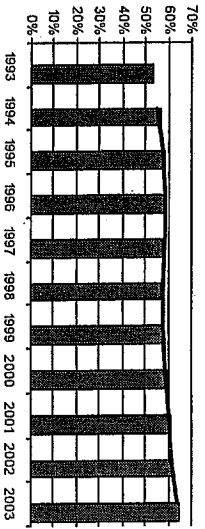

# Jail Profile Survey

2003

## Percentage Non-sentenced

10 Year Summary									
1993	1994	1995	1996	1997	1998	1999	2000	2001	2002
53%	57%	59%	59%	58%	57%	58%	60%	61%	62%

Quarterly Results				
Q1	Q2	Q3	Q4	Average
2002	63%	62%	63%	62%
2003	64%	65%	66%	65%

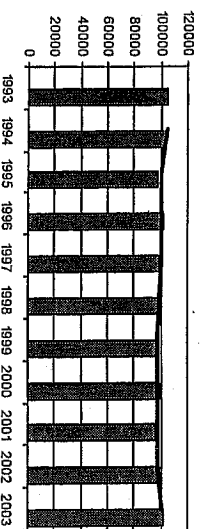

With the non-sentenced population increasing by over 13,000 inmates in the last ten years, and the sentenced population decreasing by over 5,000 inmates, the percentage of non-sentenced inmates has been steadily rising. The non-sentenced percentage of the total ADP has gone from 53% to 65% in ten years. With the static ADP over the last two years, the non-sentenced population increased from 62% in 2002 to 65% in 2003. This rate of increase in the non-sentenced population is creating tremendous pressure to find adequate jail space for sentenced inmates to complete their assigned lengths of stay.

## Average Number of Persons Booked Per Month

10 Year Summary									
1993	1994	1995	1996	1997	1998	1999	2000	2001	2002
105,593	103,996	97,589	101,942	99,182	98,860	97,008	98,754	96,695	98,668

Quarterly Results				
Q1	Q2	Q3	Q4	Average
2002	97,628	98,417	100,008	98,592
2003	97,465	103,966	106,623	100,988

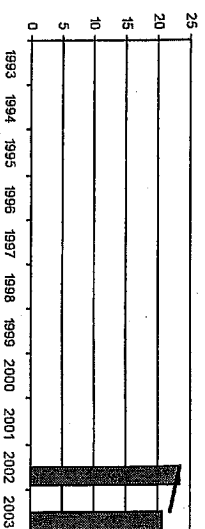

In the 4th Quarter of 2003, the average number of bookings per month was 100,988. The average number of bookings per month for 2003 calendar year was 102,282. The 2003 result is 4% higher than in 2002, and 6% higher than in 2001. We believe that these increases reflect the gradually increasing crime rate in California, and the inexorable growth in the State's general population. The fact that in the recent past, bookings have increased while the ADP has not, suggests an ever widening gulf between the need for jail beds and jail capacity.

## Average Length Of Stay

10 Year Summary									
1993	1994	1995	1996	1997	1998	1999	2000	2001	2002
									23.5

Quarterly Results				
Q1	Q2	Q3	Q4	Average
2002	22.4	27.5	21.4	22.7
2003	20.8	21.6	20.9	18.8

In 2002, we adopted a new method of measuring the Average Length of Stay. Prior to 2002, we used an estimate that was computed from the booking and ADP results. Since 2002, jurisdictions have provided us with the actual lengths-of-stay figures for inmates released during the reporting period. Even though the two methods produce similar results, the Average Length of Stay values published in this report were computed using the latter method.

**Interpretation of Table:**  
**JAIL POPULATIONS: 4th Quarter '02 versus 4th Quarter '03**

This table:

- summarizes the ADP results for the 62 jurisdictions in California reporting data from Type II, III, and IV jails;
- summarizes jurisdiction ADP results for the most recent quarter (Column C);
- compares jurisdiction ADP for the most recent quarter with the same quarter last year (Column B);
- ranks the jurisdictions in terms of gains or losses in ADP from high to low (Column D);
- lists the percentage growth or decline in ADP for each jurisdiction (Column E);
- lists the percentage of the overall State increase or decrease in ADP that is represented by each jurisdiction (Column F);
- lists, by jurisdiction, the cumulative percentage increase and decrease in the State ADP starting with the jurisdiction with the highest percentage of the increase and proceeding to the jurisdiction with the highest percentage of the decrease (Column G);
- lists, by jurisdiction, the cumulative total increase and decrease in the State ADP starting with the jurisdiction with the highest increase and proceeding to the jurisdiction with the biggest decrease (Column H); and,
- lists the jurisdictions that experienced decreases in their ADP as shaded.

Some important conclusions from this table are:

1. The two numbers at the bottom indicate the "total increase" in ADP (in this case 2,863) and "total decrease" in ADP (-3,173). In other words, the jurisdictions experiencing increases had a total increase of 2,863 ADP; and the jurisdictions experiencing decreases had a total decrease of 3,173 ADP. Subtracting 2,863 from 3,173 produces the overall decrease of 310 between the fourth quarter of 2002 and the fourth quarter of 2003.
2. The Fresno ADP increase of 730 is 32.5% of the total increase of 2,863. Forty jurisdictions had increases (down to Siskiyou Sheriff's Department) with two jurisdictions reporting no increase (Inyo and Calaveras Sheriff's Departments). When you get to Calaveras Sheriff's Department, you have accounted for 100% of the increases (100% of the cumulative total of 2,863).
3. Jurisdictions that experienced a decrease in ADP are listed from smallest decrease to largest decrease (Plumas Sheriff's Department to Los Angeles Sheriff's Department). When you get to the bottom of the table, you have accounted for 100% of the total decreases of 3,173 inmates.
4. The cumulative percentage of ADP increase for the top four jurisdictions (Fresno Sheriff's Department to San Bernardino Sheriff's Department) is 56.1%. In other words, four jurisdictions accounted for about 56% of the total ADP increase. Three jurisdictions (Contra Costa, San Francisco and Los Angeles Sheriff's Departments) account for about 91% of the decreases.
