

Juvenile Justice Crime Prevention Act - Youthful Offender Block Grant  
2017 Expenditure and Data Report  
Due Date: October 1, 2017

On or before October 1, 2017, each county is required to submit to the Board of State & Community Corrections (BSCC) a report on its Juvenile Justice Crime Prevention Act (JJCPA) and Youthful Offender Block Grant (YOBG) programs during the preceding year. For JJCPA this requirement can be found at Government Code (GC) Section 30061(b)(4)(C) and for YOBG it can be found at Welfare & Institutions Code Section (WIC) 1961(c). These code sections both call for a consolidated report format that includes a description of the programs and other activities supported by JJCPA and/or YOBG funds, an accounting of all JJCPA and YOBG expenditures during the prior fiscal year, and countywide juvenile justice trend data.

**Prior to submitting this report save the file using the following naming convention: "(County Name) 2017 JJCPA-YOBG Report." For example, Yuba County would name its file "Yuba 2017 JJCPA-YOBG Report".**

Once the report is complete, attach the file to an email and send it to: [JJCPA-YOBG@bscc.ca.gov](mailto:JJCPA-YOBG@bscc.ca.gov). All reports will be posted to the BSCC website following a brief technical review.

#### COMPLETING THE REMAINDER OF THE REPORT:

The report consists of several worksheets. Each worksheet is accessed by clicking on the labeled tabs below. (You are currently in the worksheet titled "**CONTACT INFORMATION**".) Complete the report by providing the information requested in each worksheet.

On the worksheet "**REPORT 1**," you will pull data directly from your Juvenile Court & Probation Statistical System (JCPSS) Report 1 that you received from the California Department of Justice (DOJ) for 2016. Similarly, for the worksheet labeled "**REPORT 3**," you will pull information directly from your 2016 JCPSS Report 3. On the worksheet "**ARREST DATA**," you will obtain data from the DOJ's Open Justice public website.

On the worksheet "**TREND ANALYSIS**," you will describe how the programs and activities funded by JJCPA-YOBG have, or may have, contributed to the trends seen in the data included in REPORT 1, REPORT 3, and ARREST DATA.

On the "**EXPENTITURE DETAILS**" worksheet, you are required to provide a detailed accounting of actual expenditures for each program, placement, service, strategy, or system enhancement that was funded by JJCPA and/or YOBG during the preceding fiscal year. This worksheet is also where you are asked to provide a description of each item funded.

**ANALYSIS OF COUNTYWIDE TREND DATA for: *Napa***

**Government Code Section 30061(b)(4)(C)(iv) & WIC Section 1961(c)(3)**

Provide a summary description or analysis, based on available information, of how the programs, placements, services, strategies or system enhancements funded by JJCPA-YOBG have, or may have, contributed to, or influenced, the juvenile justice data trends identified in this report.

Napa County employs a coordinated approach to addressing juvenile delinquency and maintains a shared vision using evidence based programming and services to target at risk youth. This is evidenced by the utilization of cognitive behavioral programming and adherence to risk and needs based supervision present throughout the programs and strategies funded by JJCPA-YOBG. In 2009, prior to the Napa County Probation Department using YOBG funds to open the Evening Reporting Center (ERC), Juvenile Probation supervised over 730 youth on active probation; which, if compared to today's numbers, would be a greater supervision population than larger counties such as San Joaquin and San Francisco. In the years since the Legislature funded juvenile realignment through the passage of SB 81, Napa County has used those resources in conjunction with JJCPA funding to pay for targeted evidence based services. This funding provides at risk youth evidence based drug and alcohol treatment, cognitive behavior services and intensive programming in the ERC to provide youth supervision and treatment during the evening hours when most juvenile crime occurs. This funding also supports intensive probation supervision to youth assessed at the highest risk to re-offend. In the past this funding has supported Evidence Based family therapy and continues to fund parent training programs like Parent Project. Youth in the Juvenile Hall also benefit from drug and alcohol services and cognitive behavioral programming.

Napa's multi-faceted approach to addressing juvenile delinquency has resulted in a significant decrease in the amount of youth supervised on probation, from over 730 in 2009 to less than 200 currently. Over that same time span the Juvenile Hall average daily population has decreased from 44 in 2009 to approximately 14 in 2016. In 2009, according to arrest report statistics on Open Justice, there were a total of 449 juvenile arrests, more than double the amount of arrests reported last year. Additionally, felony arrests have dropped by 60% from 189 arrests in 2009 to 76 in 2016. Over the last several years as the Probation Department has utilized an evidence based approach to assessment, supervision and services, the youth remaining on probation caseloads have more intensive needs and are at the highest risk to recidivate. It is anticipated that the numbers will likely reach a plateau and the challenge will be continuing to find success with these very high risk populations. It is worth noting that even with this more intensive population of supervised youth, the Probation department has been able to maintain the vast majority of youth in their homes with their parents. The Department did not send any youth to DJJ.

For example, you might want to include information on the types of youth served, prevention services you provided, your accomplishments, any barriers encountered, and what specifically JJCPA and/or YOYG funds paid for.

The STAR program is a delinquency intervention program of the Napa County Probation Department that is designed to increase the competencies of juvenile probationers and their families so that youth successfully complete probation, do not re-offend and attempt to repair the harm they might have done to a victim. This program is staffed by two (2) probation officers who are responsible for supervising youth on this caseload and coordinating with local agencies and other probation programming staff to provide cognitive behavioral services. Youth are provided these services pursuant to their risk level and criminogenic needs as identified in their Youth Level of Service/Case Management Inventory (YLS/CMI) assessment. This program also strives to support families by providing funding for parent training so the skills youth learn in programming can be supported in the home. Additionally, this program funds one half time mental health counselor to provide mental health support services for youth in the Juvenile Hall. In addition to the programming offered to youth in ERC, over the last year youth and families were provided over 2800 hours of programming to address youth delinquency.

The Outpatient Substance Abuse Treatment (OSAT) program is designed to provide services to probation youth who need help reducing or eliminating substance abuse and the crimes associated with their substance abuse. The Wolfe Center, in collaboration with the Napa County Probation Department, provides intensive evidence based outpatient substance abuse treatment to Napa County probation youth. Youth referred to the OSAT program are initially assessed by the Probation Department to determine their level of need utilizing the Youth Level of Service/Case Management Inventory (YLS/CMI) assessment and then referred to the Wolfe Center where youth receives an individual Alcohol and Drug Assessment to determine the level of treatment the youth would benefit from. Youth in the program receive substance abuse treatment utilizing the Evidenced Based Matrix model. While in the program youth and their families receive individual and group therapy, parental support, education and treatment. In addition to treatment, youth in the OSAT program are provided supervision by the Probation Officer responsible for monitoring their Court orders. The Probation Officer is responsible for referring the youth and their families to community based services to address co-occurring issues. The program also provides Drug Education programming for youth in the Juvenile Hall.

The Evening Reporting Center (ERC) served medium to high-risk youth between the ages of 14-17 who met certain eligibility requirements focused on strengthening the ability of youth to achieve positive outcomes. The program is a community based alternative to detention which provided highly structured evidence-based programming and prosocial activities during high-risk periods. The program is a collaboration between the Napa County Probation Department and Aldea, a local non-profit agency. Aldea provides mental health and substance abuse treatment to our youth. Youth were court-ordered into the ERC program for 60 days. During the program they received evidence-based programming by staff trained as cognitive behavior facilitators targeting their criminogenic needs. Each ERC youth had an individualized case plan based on an evidence based risk assessment tool monitored by the Senior Probation Officer dedicated to coordinating the ERC program. Additionally during the summer, youth were provided these services during the day time to provide programming during the hours they have little supervision while school was not in session. The ERC Probation Officer also provided the youth with case management and after care services. During the fiscal year there was an 85% successful completion rate and youth were provided a total of 1,423 cognitive behavioral hours while in the program.

For example, you might want to include information on the types of youth served, prevention services you provided, your accomplishments, any barriers encountered, and what specifically JJCPA and/or YOBG funds paid for.

Youth who were on probation and/or enrolled in the Evening Reporting Center (ERC) were provided with pro-social skills training to strengthen their ability to achieve positive outcomes. Youth were provided a variety of pro-social skill building activities during their ERC program if applicable including, but not limited to, resume writing, interviewing skills, career exploration with guest speakers, art, physical recreation activities and community service. The pro-social activities were designed to enhance the evidence-based curriculum of the ERC program and to assist youth in changing their lives. Probation youth's risk and needs are assessed utilizing an evidence based assessment tool and provided the opportunity to engage in evidence-based programming coordinated to target their highest criminogenic need areas. The overall population of youth on probation in Napa County continues to decrease due in part to the department's utilization of pro-social skills and evidence based programming. The coordination and implementation of these services has been instrumental in the continuation of this success. The Youthful Offender Block Grant funded one (1) full time Probation Officer assigned as the department's Cognitive Behavioral Coordinator. The position is responsible for coordinating and facilitating cognitive behavior groups as well as pro-social skills training to support youth in ERC, in the Juvenile Hall and on Probation.

The Napa County Probation Intensive Supervision Services Program served high-risk offenders residing in the community and/or returning to the community from residential treatment or camp. The program is designed to enhance the rehabilitative and treatment programs and services offered to these youth. One (1) full-time Senior Probation Officer is dedicated to this caseload and was responsible for monitoring high-risk and very high-risk youth who received intensive supervision. The Intensive Supervision Services Program provided services for youth exhibiting severe mental health issues. Services were provided in collaboration with mental health treatment providers throughout the county to individualize treatment with the purpose of stabilizing the youth in the community and reducing the need for out of home placement. The Senior Probation Officer dedicated to this caseload successfully partnered with County Mental Health as part of the Child and Family Team for several intensive mental health cases which would have otherwise been placed out of the home. This probation officer also worked to re-integrate very high risk youth back into the community once they returned from camp placement or residential treatment. The program is made up of the probation youth within the community who have been assessed at the highest risk to recidivate and have the most high risk criminogenic need areas. While this targeted populations' vast array of needs and lack of prior success represent a potential barrier to future success, the program was able to effectively adapt to these needs and was successful in preventing any youth from being sent to DJJ.
