

Juvenile Justice Crime Prevention Act - Youthful Offender Block Grant
2017 Expenditure and Data Report
Due Date: October 1, 2017

On or before October 1, 2017, each county is required to submit to the Board of State & Community Corrections (BSCC) a report on its Juvenile Justice Crime Prevention Act (JJCPA) and Youthful Offender Block Grant (YOBG) programs during the preceding year. For JJCPA this requirement can be found at Government Code (GC) Section 30061(b)(4)(C) and for YOBG it can be found at Welfare & Institutions Code Section (WIC) 1961(c). These code sections both call for a consolidated report format that includes a description of the programs and other activities supported by JJCPA and/or YOBG funds, an accounting of all JJCPA and YOBG expenditures during the prior fiscal year, and countywide juvenile justice trend data.

Prior to submitting this report save the file using the following naming convention: "(County Name) 2017 JJCPA-YOBG Report." For example, Yuba County would name its file "Yuba 2017 JJCPA-YOBG Report".

Once the report is complete, attach the file to an email and send it to: JJCPA-YOBG@bscc.ca.gov. All reports will be posted to the BSCC website following a brief technical review.

ANALYSIS OF COUNTYWIDE TREND DATA for: Nevada

Government Code Section 30061(b)(4(C)(iv) & WIC 1961(c)(3)

Provide a summary description or analysis, based on available information, of how the programs, placements, services, strategies or system enhancements funded by JJCPA-YOBG have, or may have, contributed to, or influenced, the juvenile justice data trends identified in this report.

The majority of funding Nevada County has received was to provide youth every opportunity to not get involved with the criminal justice system. The main method Nevada County chose was to address truancy. By identifying youth at risk of becoming involved with the criminal justice system and provided resources needed to abstain from criminal behavior, numerous youth have been diverted from the criminal justice system. This ensures the youth will be significantly less likely to enter the school to prison pipeline. Keeping youth out of the juvenile justice system is also accomplished by diverting youth from the system before they have been adjudicated. This, paired with addressing truancy at an early stage, ensures Nevada County youth are afforded every opportunity to stay out of the justice system while still receiving all the benefits and resources the probation department offers.

A probation officer is assigned as the truancy liaison to all local school districts. That officer participates in the School Attendance Review Board (SARB), School Attendance Mediation (SAM), Special Multi-Agency Resource Team (SMART), and Community Agencies United for Safe Schools and Safe Streets (CAUSSSS). From these sources as well as directly from the schools sites and districts the officer receives truancy referrals. They then work with the parents to gain their buy-in to develop a program that provides the resources needed specific to that family to eliminate any barriers the family is facing that is seen as the cause of the minor's truancy.

The program involves supporting the parent, while offering a full scope of services in a holistic approach. There is a schedule of rewards and sanctions for behavior that includes a variety of responses up to gift cards for positive behavior and truancy court for negative behavior. All the while providing the family with support and resources. All of the groups mentioned above are collaborative stakeholder groups that engage in this program. The program has the full support of the school districts and Nevada County Office of Education. The officer assigned does regular outreach to school staff to inform them of the program and benefits of the program. School staff are committed to keeping youth in the most appropriate educational setting. Throughout the year we monitor referrals and trends of those referrals. At the end of the year we use the data collected to determine at what level of intervention we start to see a correlation between the intervention and improved school attendance.

A probation officer is assigned to the intake function of the department. They process referrals and access all referred juveniles for initial static risk using a validated risk/needs tool. If the individual is a first time offender, scores low risk on the tool, and the crime is not a mandatory referral they initiate a hold on the referral. Once a hold is initiated they educate the family on the resources that are available to the family in the community that will potentially address the identified needs of the family. They walk them through the process of accessing these services and attempt to empower the parents to take a role in securing services. We also educate them on the juvenile justice process so that they know what benefits and potential consequences they are facing during and after the diversion process. The officer remains a resource to the family after the intake and diversion process. They can access the services of the officer at any time during the process. If the minor goes six months free from further referrals or does not rise to the level of need for further intervention then they will not be formally processed. The goal is that hopefully the matter is either an aberrant period of behavior and/or the matter can be handled successfully at the lowest level to avoid pulling a minor into the system that would otherwise thrive without such an intervention. This model not only conserves resources across the board, but also recognizes that intervening at a high level when unnecessary could actually increase a minor's risk to re-offend.

Juvenile Hall Group Supervisors serve as Case Coordinators (CC) for detained youth. CCs are responsible for providing case plan documentation, determining minor's risks and needs and for matching minor with services and programs available in JH. CCs are also responsible for making regular contact with minor's parents to ensure parents are fully aware of visiting times, obtain any necessary medical treatment authorization, and to provide progress reports. Coordinators develop personalized "reward contracts" for each minor, based on identified needs, which allow the youth to obtain certain privileges (home pass, in- house pass, early release). For example, a young person who has a history of substance abuse may have a stipulation that they need to attend Narcotics Anonymous classes to meet the criteria for the reward contract. Weekly evaluations are completed and placed into the Juvenile Hall electronic case management system, which include the minor's weekly behavior grades and progress level. CCs actively encourage minors to participate in programs.
